Kyle Park BMX lease

Nov 21, 2025 - Jan 22, 2026

Response No:
1

Contribution ID: 40784

Q1 Are you responding:

Multi Choice On behalf of a recognised organisation or business

Q2 Name of organisation/business

Short Text Spokes Canterbury

Q3 Your role

Short Text Submissions Coordinator

Q4 Full name

Short Text Anne Scott

Q8 Do you support the new lease?

Select Box Yes

Q9 Is there anything you would like to tell us before we make a decision on the lease application for Kyle Park BMX Track?

Long Text

Spokes fully supports this proposal including:
. two storage containers and dome bunker to be recognised in the lease
. building of a start hill cover
. replacement of the start gate
. installation of a limestone bunker at the Western end of the BMX track
. the addition of 1.2m safety fencing around some parts of the track.
and would like to see appropriate bike parking added.

Select Box Yes

Q9 Is there anything you would like to tell us before we make a decision on the lease application for Kyle Park BMX Track?

Long Text

SWISH represents the collective voice of sport and recreation organisations across the southwest. Our member clubs span football, cricket, athletics, rugby league, rugby, softball, bowls, netball, and local secondary schools. Together, we support thousands of children, youth and adults who participate weekly in community sport.

SWISH fully supports the Christchurch BMX Club's proposal at Kyle Park.

At our recent AGM, member clubs across all sports agreed that this development would be a significant asset for youth, families, and the wider southwest community.

BMX brings something unique to the local sporting landscape, high participation appeal, especially among tamariki and rangatahi, and an accessible entry point into physical activity for those who may not connect with traditional team sports.

The southwest is one of Christchurch's fastest-growing areas.

Youth numbers are rising rapidly, and existing facilities are already at capacity.

BMX offers a safe, exciting alternative for children and teenagers needing active recreation.

Kyle Park is a suitable and strategic location that naturally aligns with existing recreational use

BMX develops agility, balance and coordination, skills beneficial across all codes.

The project contributes to a balanced, diverse sporting ecosystem.

The BMX development supports key priorities identified in local visioning work, including:

Providing more youth-focused recreation

Increasing safe, family-friendly activity spaces

Ensuring infrastructure keeps pace with rapid housing growth

Strengthening the Hornby community through positive, healthy sport pathways

BMX also aligns with citywide goals around cycling, active transport, and accessible recreation.

SWISH strongly encourages Council to approve the Christchurch BMX development at Kyle Park.

Long Text

I raced on the original Hornby track 25 years ago as a child and now my son is getting to do the same again. It's a fantastic club and really needs the proposed upgrades to modernise the facilities. The toilet situation is in dire need of an upgrade and I support all the infrastructure updates as needed.

Q9 Is there anything you would like to tell us before we make a decision on the lease application for Kyle Park BMX Track?

Long Text

THE BMX club take over the whole park during their events, and practices. 99% of the encounters I have had as a pedestrian with my children have been negative, with them using the footpath for exercises regardless of foot traffic.

In my 10+ years living in Hornby, walking the park at least twice a day- I have seen children collide with bikes on 2 occasions, and elderly people and pushchairs resigned to walk on the grass.

As the BMX club has grown, I feel that they have unfortunately become more obnoxious, and less mindful of other park-users.

Parking during their large events is a nightmare for residents with cars parked not only on the grass, but often up and down the road. Crossing anywhere near the park is dangerous as attendees frequently ignore the general public, and generally have an air of rudeness and entitlement.

Therefore , I do not support their new lease, and hope they can take into consideration other people's use of the park, during future events and practices- especially where health and safety practice for non-members has been lack.

Short Text Rodney Boon

Q8 Do you support the new lease?

Select Box Yes

Q9 Is there anything you would like to tell us before we make a decision on the lease application for Kyle Park BMX Track?

Long Text

The BMX club have done considerable work improving the track and general surrounds. They provide recreational activities for all ages and deserve ongoing support by continuation of the lease and approval to continue with proposed upgrades/developments. Although not specifically mentioned the club should also be given approval to build clubrooms on the property in due course. CCC should upgrade the current toilet facilities which are, frankly, disgusting and are used by (brave) other park users as well as the club.

Q11 What best describes you?

Multi Choice Other: Family of BMX club members.

Select Box Yes

Q9 Is there anything you would like to tell us before we make a decision on the lease application for Kyle Park BMX Track?

Long Text

I fully support the proposal, it would be a shame to see this go to ruins. Way back in the early 1980's two local businessmen by the name of Neville Hampton (Hornby Cycle's) & Bob Shearing (Bob Shearing Contractors) approached then the Paparoa District council to get approval to use a part of the disused land / pit on Waterloo rd for a BMX track. They both put in a lot of their own time and effort with the help of a couple sponsors to get it up and running it's a wee bit different to what was first designed and built but it has been well utilized over the years. My father Neville Hampton has passed away but everytime I drive passed or walk through Kyle Park I remember the dedication of two businessmen who had the foresight into the future for the local community.

Q11 What best describes you?

Multi Choice Other: A person who has connections with the two businessmen who made this happen back in the 1980's

Q9 Is there anything you would like to tell us before we make a decision on the lease application for Kyle Park BMX Track?

Long Text

This club supports our rangatahi and develops their capacity both in biking, but also in resilience. As a secondary teacher I can tell you that ākongā that can race a bike around a BMX track and stand on a gate is not going to develop anxiety, they'll be better in school and more ready for life in general.

I'd support going a little further with the lease. Every rugby club has clubrooms, but not BMX clubs. Why not make this right by putting a prefab clubrooms with kitchen and modern toilets above the 1st and third corner? This would support the club to grow, and develop social connections better too. The current toilets are gross and belong to the park not the club. The club deserves better.

Long Text

This is an integral part of the Hornby community, utilised and loved by many far outside of this suburb. This outwardly understated bike track infact supports young and old to be fit and active while offering community and connection - and in a world full of division and hate, this cannot be understated.

What little bladders desperately need are toilets closer to the track. Expanding the sun protection across the starting gate would be inline with BMX tracks around NZ

Q11 What best describes you?

Q9 Is there anything you would like to tell us before we make a decision on the lease application for Kyle Park BMX Track?

Long Text

Thank you for the opportunity to comment on the Kyle Park BMX track upgrade.
I support the upgrade of the BMX track. So that children and other people of Hornby and Hei Hei and other places can do healthy activity in the open air.
I would like to see the removal of all the known asbestos from the site (western side of the path).
I would also like to see more investigation of the site looking for more asbestos and heavy metals.
It is a good and admirable getting ever one outdoors doing healthy activities. But no one will thank you in years to come when Kyle Park gives them a slow lingering death-ASBESOSIS. there is no know safe level of exposure to asbestos.

Long Text

I have been a member of the Christchurch City BMX club since 1988 including volunteer roles on the committee including president and at regional and national levels. I am currently on the board of BMXNZ and my wife (who is a life member of the club) and I still race competitively. The track in Kyle park as well as the original track to the west of the current one hold many cherished memories.

The club takes pride in the track and its connection to the local community. We appreciate that the venue is available to the public and is a place that riders of all ages can come to practise and develop skills that will make them more confident and safe on two wheels. I look forward to continuing this long term community engagement and facility.

Thank you,

Mike Head

Long Text

It's an excellent facility! Would love to see it stay and continue to grow and improve. We have recently moved to chch and my son has found a new sport that he loves, we use the track very regularly and he is also doing trainings there. Would be awesome to see a toilet on site or upgrades to the existing toilets that are in the park as they are very outdated and not very pleasant to use, many children go over there with the intention of using them and walk away because they aren't comfortable with using them.

Long Text

my children got involved in BMX a few years ago watching them grow and the community that is brought together by the track. practices they meet kids from the local community joining in. many people i talk to know about the track from around Christchurch and further away. they comment on how nice it looks, the great events people attend and how entertaining it is to watch.

i understand from public documents it is built on an old landfill and there is asbestos located near the track in the fenced off area. around New Zealand other tracks have similar situations they have done wonders working with the council and created embankments with some seating and grassed area for public and track use. by encapsulating the material below. this could be a great opportunity for the council to solve the contamination and also make an area which the community and people attending the track can use for viewing events or even during the week a place to just sit down and look out across the park.

at the same time it would be a great opportunity to include nicer toilets, i know my younger kids are scared to use the current toilets in the park with broken toilet locks, rough looking toilets. a place to get drinking water would also be a great benefit.

parking on the road with young kids and bikes is very dangerous especially since waterloo road is much busier now. better solutions around parking in the park area off the road would be of great benefit for everyone.

The existing Kyle Park toilet block is very dated and inadequate, especially when there are significant out of town BMX'ers attending a BMX meeting.
As an example take a look at the new toilet block installed beside the Rangiora BMX track. It is outstanding.

Long Text

Kyle Park and CHC BMX is the closest BMX Track to us in Rolleston. Without this, we would have to travel to Bexley or even Rangiora. I fully support CHC BMX extending their lease. To further improve this facility and to allow the club to host even bigger and better race events, the council desperately need to upgrade the public toilets, and parking needs to be addressed. Since the earthquakes the council have done nothing to re flatten out the park and instead of being a nice usable field, it's a rollercoaster. I appreciate the concerns about this area being an old dump but bringing in a few trucks of soil and leveling out the hollows would be pretty simple and wouldnt penetrate the existing ground. The BMX Club have done a great job in the last 18 months with fencing and improvements, compared to other venues they have almost no space or facilities, so I fully support the desire to recognize containers and also to build Lime Storage.

Q9 Is there anything you would like to tell us before we make a decision on the lease application for Kyle Park BMX Track?

Long Text

The toilet facilities available for the BMX track are completely inadequate. The toilets at the North Avon track and the North Canterbury (Rangiora) track are vastly superior, they are closer, newer and higher quality (Rangiora has a brand new toilet block, but the old toilets were of a higher standard than Hornby).

The track and club provides a superb public service. I fully support the lease but ask that the council provide toilet facilities that can support the regional and national events held there.

the track is an asset to the community and local businesses bringing in major meetings with upwards of over 600 riders and 1000 supporters, I have been a member of the club over the last 32 years. in its current location from 1998/99 and before that when we were located in the storm water lake . I've seen good and bad from the track in this time but I believe the good far out ways the bad , we have had Olympians (Trent Jones) was a member and used our facility for Olympic training, so weather your a beginner on a balance bike or an elite athlete training for the Olympics the club and track are there to support you.

They draw a lot of parents and supporters which is fantastic and an opportunity to show off our beautiful user friendly green space park, however the Council facilities in Kyle Park fall well short for organizations and individuals to use including use of cycle lane. I would like to see rubbish bins located at the seating areas (not just the current one bin for entire park) and missing bench seat that views BMX track reinstated, because these seating areas are used daily and rubbish discarded (not suggesting at all that BMX park is responsible) and council mower persons just mow including the rubbish, the toilet area needs a bin for patron use (cycle lane bikers and visitors)as well. Fully support BMX continuing at this site with their proposed additions. Hoping Council makes improvements for all users of Kyle Park.

I absolutely support the lease. The club work hard to provide a service to the local and broader community areas and volunteers provide a great deal of support to young riders and their families. I support the clubs proposals. I would also request consideration of an upgrade to the public toilet facilities near the track as these are embarrassing, and well overdue for improvement. They aren't nice for riders, supporters, or spectators to use currently. The BMX club work hard to provide so much, it would be great to see them supported by the council in an improvement in the public facilities available in the area.

Long Text

I have lived in Hornby since 1976 and was there when the first track was built closer to the road. There have never been any major problems at the park that I know of in that time. It's not used as an antisocial hangout and those who use the area seem very respectful of the property. I see no reason to decline their new lease although someone from the CCC needs to proofread their notices. I'm sure no one would want to 'stay' under the new shelter in adverse weather conditions making it sound like a camping area. More likely they would 'stand' under the new shelter in adverse conditions. I give my full support to the club with their upgrades.

Q9 Is there anything you would like to tell us before we make a decision on the lease application for Kyle Park BMX Track?

Long Text

Huge supporter of the Hornby BMX track (Kyle park)

Please don't get rid of this.

I do however see that they are asking for a new start gate...

Nationals used to come to Hornby. This brings about 5000 people to the park. Which in turn boosts hornbys economy.

Imagine if Kyle park could hold worlds the amount of people that would be here and the money it would bring to the economy.

Q11 What best describes you?

Long Text

This is an amazing asset to the community and with a bit of love and attention could be an even bigger drawcard. I believe there needs to be better toilet facilities as the current ones in Kyle park are disgusting, often broken and too far away.

A small clubroom would also be amazing but not essential.

A viewing area would be amazing near the final straight (closest to the railway track) but I'm aware of restrictions due to ground contamination- could this be addressed?

Q11 What best describes you?
