| 31746 | <p>Do you feel we've gotten this tree planting plan right? Somewhat</p> <p>Tell us why you feel this way A little more open space in the middle would be good for better passive observation as it's already an inward facing park so don't want to enclose it too much. Teenagers already try hide behind bushes to smoke so don't want to provide more opportunity for these negative behaviours.</p> <p>Do you have any more feedback about this tree planting plan? No other feedback.</p> | Sarah Rigden |

Somewhat</p> <p>Tell us why you feel this way I feel the west end of the park would be better if the tree planting were more tightly grouped and the un-treed area enlarged to make it more appealing to game play.</p> | Graham McMillan |
