31776	<p>Do you feel we've gotten this tree planting plan right? Yes</p> <p>Do you have any more feedback about this tree planting plan? As mentioned the We Are Richmond team have put alot of work into the development of the Petrie Park Bowling club site long before this tree planting plan was put in place. We have already completed a number of community engagement sessions and started implementation of our landscape plan and would like the CCC team to work with us on this not against us.</p>	Hayley Guglietta - We Are Richmond, Treasurer

31565	<p>Do you feel we've gotten this tree planting plan right? Somewhat</p> <p>Tell us why you feel this way I think be good to have some fruit trees in there somewhere Maybe a central more open space where they can grow</p> <p>also, lots of natives around the boundaries and in clumps that are the type to attract birds. In time when red zone areas have more and larger natives the birds will come from there.</p> <p>Do you have any more feedback about this tree planting plan? all trees are good, so it is excellent that the council has chosen to plant them.</p>	Janine Stagpoole
31588	<p>Do you feel we've gotten this tree planting plan right? Somewhat</p> <p>Tell us why you feel this way I love the trees being planted however I do worry about ongoing maintenance by CCC. The same goes for grassed area's.</p>	Lena Tiebosch
31592	<p>Do you feel we've gotten this tree planting plan right? Yes</p>	Liesbeth van Bruchem
31725	<p>Do you feel we've gotten this tree planting plan right? Yes</p> <p>Do you have any more feedback about this tree planting plan? We take our dogs twice a day tho this park and would be good for there to still have lots of open space for running around, frisbee etc.</p>	Brooke Gardner
31736	<p>Do you feel we've gotten this tree planting plan right? Yes</p>	Fay Brorens
31756	<p>Do you feel we've gotten this tree planting plan right? Yes</p> <p>Do you have any more feedback about this tree planting plan? Make sure you continue to consult with the We Are Richmond Planning team to ensure the tree planting works with their overall plan.</p>	Hayley Guglietta
31760	<p>Do you feel we've gotten this tree planting plan right? Yes</p>	Patrick Boland

	<p>Do you have any more feedback about this tree planting plan? Wonderful community led development</p>	
31761	<p>Do you feel we've gotten this tree planting plan right? Don't know / not sure</p> <p>Tell us why you feel this way When walking our dogs I like to be able to see ahead if other dogs arrive so I can prepare for any interactions.</p> <p>Do you have any more feedback about this tree planting plan? Looks good .. more trees is always better Some places to sit would be nice</p>	Amy Green
31762	<p>Do you feel we've gotten this tree planting plan right? Yes</p> <p>Do you have any more feedback about this tree planting plan? Trees are important to decrease the overall temperature in the area, increase biodiversity, air quality and reduce stress. We need more trees in the city.</p>	Claudia Edwards
31764	<p>Do you feel we've gotten this tree planting plan right? Somewhat</p> <p>Tell us why you feel this way Depending if the trees are</p>	Molly Ganderton
31767	<p>Do you feel we've gotten this tree planting plan right? Yes</p>	Maree Greaves
31768	<p>Do you feel we've gotten this tree planting plan right? Somewhat</p> <p>Tell us why you feel this way I can't believe this plan with all its winter shading was allowed off the printer. The amount of south shade it creates for us is untenable and cannot move past the current point.</p> <p>Do you have any more feedback about this tree planting plan? Get someone with a qualification in shading to redesign your tree planting so that it doesn't cover 25% of my property in winter. It's non consentable to build a structure that would shade this much area why is it of to plant trees to do much the same??</p>	Kris Mackie
31770	<p>Do you feel we've gotten this tree planting plan right? Don't know / not sure</p> <p>Tell us why you feel this way I'm not sure what the proposed tree species are.</p> <p>Do you have any more feedback about this tree planting plan? Trees to attract native birds would be great. I'd also love to see some trees for kids to climb.</p>	Jane Hopkins
