Bridge of Remembrance

From the Chair

Kia Ora

It is my privilege, on behalf of the Waipapa Papanui-Innes-Central Community Board, to introduce our Community Board Plan for 2026-2028. This plan sets a clear direction for how we will prioritise local investment, strengthen advocacy and support initiatives that improve everyday life across our neighbourhoods over the next three years.

Our Board represents a wide and vibrant area, shaped by diverse cultures, experiences and needs. In a time of rapid change, socially, environmentally and economically, it was important for us to pause, listen and take stock of what our communities are telling us, what matters most now and what will matter into the future.

The foundation of this plan is community insight. We engaged closely with local groups, residents and partners who understand their neighbourhoods from lived experience. Their perspectives, combined with collaborative planning alongside Christchurch City Council staff and public feedback, have directly informed the priorities and actions outlined in this document. I extend my sincere thanks to everyone who contributed their time, ideas and energy to this process.

Several key challenges and opportunities emerged consistently. These include managing the effects of housing intensification, strengthening community safety and wellbeing, improving transport and

accessibility so people can move safely and easily through our area, and building resilience in the face of a changing climate. Together, these issues shape how people experience their communities and how connected, supported and included they feel.

As a Board, we are committed to working in partnership with our communities, supporting inclusive participation, amplifying local voices and ensuring decisions are grounded in fairness and long-term thinking. Our goal is to help create neighbourhoods that are accessible, safe, connected and resilient for everyone.

I look forward to working with residents, community organisations, mana whenua and council partners over the next three years to turn this plan into action and to help our communities thrive.

Dr Sunita Gautam
Chairperson

About community boards and our plans

Community boards carry out functions and exercise powers delegated to them by their councils.

There are six community boards within the Christchurch City Council area.

Local body elections for community board members and councillors are held every three years.

The community board's main role is to:

- Represent and advocate for the interests of its community.
- Consider and report on all matters referred to it by the council, or any matter of interest to the board.
- Maintain an overview of council services in the community.

- Prepare an annual submission to the council for expenditure within the community.
- Communicate with community organisations and special interest groups within the community.

Community Board Plans

Community board plans are developed every three years and outline the board's key priorities for its elected term. They also indicate how the board will work in partnership with the local community to achieve the council's community outcomes.

A key part of the development of the plan is engagement with the local community and key stakeholders to ensure that the board's priorities reflect the needs and desires of local residents, community groups and businesses in our board area.

Te Haumako Te Whitingia

Strengthening Communities Together Strategy

In 2022, the Council reflected on the 2007 Strengthening Communities Strategy, which made it clear that people value diversity, collaboration, being connected and building capability for the future.

We cannot address the many complex social issues that face our city on our own, but we can help to develop and nurture networks and bring resources and people together so that collectively we can achieve more.

We know that communities want us to focus more on impact and outcomes, with more emphasis on collaboration and partnership. They want transparency and accountability with measurable goals and actions so we know what's working and what isn't.

We believe this refreshed strategy delivers on this.

The strategy has been organised around four pillars that set out the Council's commitment to working alongside the community over the next ten years.

Strategy Pillars

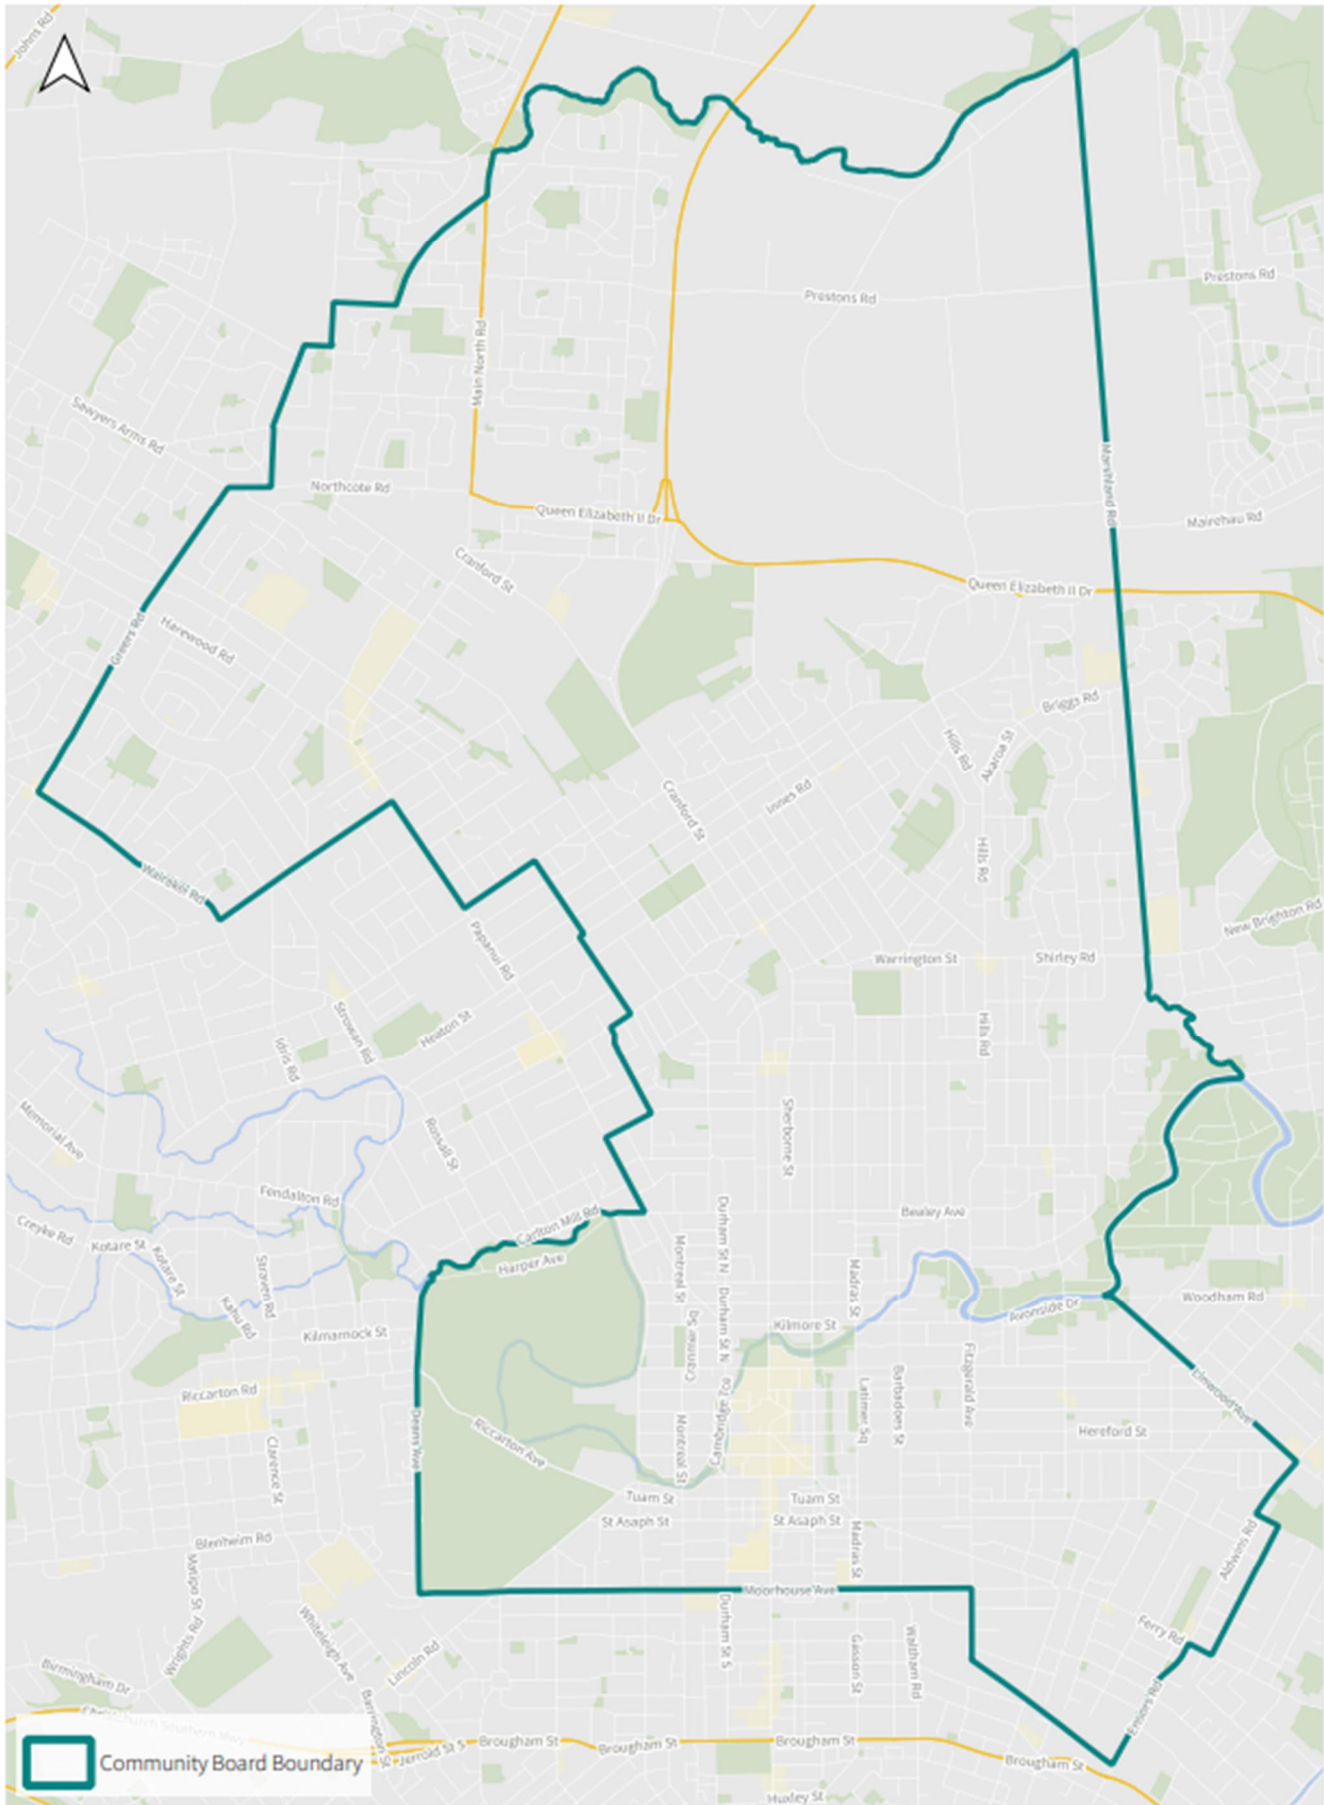

Te Tāngata People	Whenua Place	Te Mahi Participation	Te Takatū Preparedness
Actively promote a culture of equity by valuing diversity and fostering inclusion across communities and generations.	Support and help build connections between communities to foster a sense of local identity, shared experience and stewardship.	Residents and groups in the wider community are socially and actively engaged and able to initiate and influence decisions affecting their lives.	People feel safe in their communities and neighbourhoods and work together to understand, adapt and thrive in the context of change and disruption.

The Waipapa Papanui-Innes-Central Community Board is committed to working alongside our local communities to achieve the goals of the strategy. The four pillars above guide us in our decision-making and advocacy on behalf of our residents.

You can view a copy of the Strengthening Communities Together Strategy on the Council's website [here](https://ccc.govt.nz/the-council/plans-strategies-policies-and-bylaws/strategies/strengthening-communities-together-strategy).

Waipapa Papanui-Innes-Central Community Board area

Key statistics

This section provides an overview of key statistics for the Waipapa Papanui-Innes-Central Community Board area. Please note all figures are sourced from the 2023 Census of Population and Dwellings.

Population:
74,364

Median age:
36.6 years

Median personal income:
\$43,000

Ethnicity

Occupied private dwellings:
30,888

Unoccupied private dwellings:
3,327

Household access to internet:
89.5%

Rented dwellings:
49.7%

Born overseas:
29%

Key Facilities and Amenities

- Libraries at Redwood, Papanui and Tūranga(Central Library)
- Major sport and recreation amenities including Graham Condon Recreation and Sport Centre, Rugby Park, Hagley Park and Oval, Botanic Gardens, Victoria Square, Cathedral Square, Margaret Mahy Family Playground, Parakiore Recreation and Sport Centre and English Park.
- Papanui Service Centre, Civic Offices
- Key Arts and Cultural facilities: Christchurch Art Gallery Te Puna O Waiwhetū, Canterbury Museum, The Arts Centre Te Matatiki Toi Ora, Isaac Theatre Royal, The Piano, Toi Moroki Centre of Contemporary Art (CoCA), Ravenscar House Museum
- 82 council parks: 54 local/community parks, 17 sports parks, nine regional parks
- One cemetery
- Two public hospitals: Christchurch, Christchurch Women's
- Two private hospitals: Southern Cross, Forté Health
- Ara Institute (formerly known as CPIT-Christchurch Polytechnic Institute of Technology)
- One Marae: Rehua
- Major shopping centres: Northlands Mall, Homebase Shirley, Cranford Street Business Park, Edgware Shopping Centre, The Crossing, South City Shopping Centre, Linwood Village, Richmond, Ferry Road/ Barbour Street
- Schools: 16 primary, two intermediate, six secondary, two composite Year 1-13, two special

Our vision

The community is supported and well-connected, and residents are enabled and encouraged to actively participate in local decision making to shape their communities.

Vision statements

- The community board is committed to supporting the [Ōtautahi Christchurch Climate Resilience Strategy's](#) climate goals and the [Ōtautahi Christchurch Urban Forest Plan](#).
- The community board will continue to uphold Te Tiriti o Waitangi, including engaging with mana whenua and tangata whenua, and by holding Te Ao Māori values at the core of the board's decision-making, enabling rangatahi and future generations to shape the places they will inherit.
- The community board will advocate for our culturally diverse communities to ensure, wherever possible, they are supported to share and protect their heritage and pursue their arts, cultural and sporting interests.
- The community board will advocate for and support digital equity on behalf of its residents and community groups.
- The community board has an open and transparent decision-making process that residents can understand and engage with, supporting well-connected, thriving communities with strong social connections that enhance wellbeing, belonging and resilience.
- The community board will consider accessibility when making any decisions.
- The community board will advocate on behalf of residents, community groups and businesses for solutions to the ongoing community flooding issues experienced during rain events.
- The community board will advocate for the inclusion of community facilities, sporting facilities, parks, greenspace and amenities in areas of high intensification and areas earmarked for future intensification where all people - regardless of age, ability, culture, or circumstance - have equitable opportunities to participate and be heard.

Planting Day Papanui Bush

Our priorities

An Integrated Transport Network for the Waipapa Board

Why this matters

A safe, well-connected, and resilient transport network is essential to support Waipapa's growth and liveability. As the area continues to intensify, high-quality public transport, safe walking and cycling routes, well-designed roads, and appropriate parking are critical to ensuring people can move safely and efficiently.

Planning and investment must also accommodate future mass rapid transit options, ensuring the network is adaptable and future proofed as travel demands evolve. Effective transport infrastructure supports access to jobs, education, services, and recreation, reduces congestion and emissions, and helps create safer, more connected neighbourhoods.

Taking an integrated, forward-looking approach now will ensure Waipapa can meet future growth while maintaining safety, accessibility, and quality of life for residents, businesses, and visitors

What the board will do:

- Advocate for the inclusion of the Northcote/Greers/Sawyers Arms corridor in the Long Term Plan, supported by studies and monitoring, to deliver safety, efficiency, and future growth solutions across short, medium, and long terms.
- Partner with external agencies to advance transport safety initiatives in the Board area, exploring opportunities for co-funding through robust business cases that align with government priorities.
- Continue to advocate for the reinstatement of the Central City Shuttle.
- Engage with the community on local transport issues, and take a measured, big-picture view, including the impacts of urban growth when considering transport issues in our community.
- DEMP - Continue to advocate for and support any ongoing initiatives due to the effects of the Christchurch Northern Corridor and bring forward funding if appropriate.
- DEMP – Advocate for the retention of the Cranford Street bus lane as a permanent feature.

- Support school safety initiatives, including the development of connected cycleways and other infrastructure or measures that improve safe access for students.
- Advocate for targeted road safety improvement trials or calming measures in known hotspots to address and reduce anti-social driver behaviour.
- Advocate for surface flooding to be prioritised in the Flooding Programme in known flooding hotspots.

How we will measure success:

- The Northcote/Greers/Sawyers Arms Corridor is included in the Long Term Plan with confirmed funding for safety and efficiency improvements and implementation of short- and medium-term solutions.
- Business cases developed that secure co-funding aligned with government priorities.
- The Central City Shuttle scoping study is considered by the Council, and the next steps are confirmed.
- Engagement provides community feedback and supports the Board's recommendations reflecting urban growth and wider transport impacts.
- Ongoing DEMP monitoring and support of mitigation projects; funding proposals advanced where appropriate; measurable improvements in affected areas; the bus lane will become permanent along Cranford Street.
- Number of school safety improvements implemented (cycleways, crossings, signage, other infrastructure); feedback from schools and communities indicating increased safety.
- Safety trials introduced and evaluated, with a measurable reduction in anti-social driving incidents in trial areas

Thriving, Safe and Prepared Communities

Why this matters

Thriving, safe, and prepared communities rely on resilience, social connection, and strong planning.

As climate-driven hazards become more frequent and severe, communities must be able to respond and recover quickly. Resilience planning for all events, including flooding, storms, earthquakes, fires, and heatwaves, ensures people, infrastructure, and essential services can withstand disruption and adapt to change.

Prepared communities are proactive; they understand local risks, build capability, and foster confidence so people feel safe and supported.

The Board emphasises its commitment to robust community engagement to ensure that community perspectives meaningfully inform the decision-making processes.

What the board will do:

- Support the ongoing development of Resilience Planning in communities, with a focus on vulnerable communities.
- Advocate that Crime Prevention through Environmental Design (CPTED) principles are considered on appropriate projects.
- Where appropriate, partner with external agencies, local businesses, and the community to support safety initiatives in our board area and continue to provide community investment through the provision of funding.
- Encourage the community to be engaged and participate in the decision-making process on outcomes that may impact their communities.
- Support the establishment of a Central Wide Safety Panel.
- Engage with the Police to meet regularly to discuss any safety concerns in the board area.

How we will measure success:

- Increased resilience capability in vulnerable communities, demonstrated by the number of community resilience plans completed, updated, or exercised each year.
- Improved delivery of safety initiatives, shown through the number of community groups funded annually and accountability reporting on impacts and participation.

- Stronger multi-agency collaboration on safety, measured by the number of joint initiatives delivered, formal partnerships established, and shared actions completed.
- Submission to the Annual Plan and the Long Term Plan, advocating for the provision of community facilities and amenities in growth areas.
- Establishment of a Central City Safety Panel with staff, external agencies and Residents' Associations meeting regularly.
- Ongoing engagement with Police, measured by the number of meetings held and issues addressed collaboratively through agreed actions.

Urban Growth and Community Planning – Papanui-Innes-Central

Why this matters

The wider community and the Community Board are concerned that existing infrastructure may not be sufficient to support ongoing growth across the board area, particularly regarding amenities, community facilities, and recreational greenspace. Without careful planning and investment, growth risks outpacing the infrastructure needed to support it effectively.

Equally important is social infrastructure, safe, accessible community spaces, facilities, and activities that foster connection and belonging, as urban growth can increase social isolation where shared spaces are lacking.

The Board recognises the value of connection-focused initiatives that bring people together, enabling residents to feel included, know their neighbours, access local opportunities, and build resilient, adaptable communities that support one another and grow sustainably.

What the board will do:

- Advocate for the retention and for Long Term Plan funding for new community facilities, sport and recreation facilities, greenspace, and amenities in areas of high growth, if required, in partnership with the community.
- Advocate for short, medium and long-term safety solutions to address urban growth around Key Activity Centres.
- Advocate that flood mitigation is considered in new large developments to ensure existing networks are not overwhelmed and remain effective in significant rain events.
- Support both new and continued activation and development of spaces that foster connection and community interaction.
- Advocate for new development to be connected via active transport modes, ensuring suburbs and communities are connected, with safe travel options to schools and other local facilities.
- Support the creation of Micro Forests or Orchard Gardens in urban spaces by identifying community facilities and/or community spaces with suitable planting areas.

- Advocate for diverse and affordable housing solutions that attract a range of people and families, support accessibility, and help build strong, connected communities.

How we will measure success:

- Submissions made to the Annual and Long Term Plan for funding for new community facilities and amenities in areas of growth.
- Implementation of short and medium term safety initiatives in and around Key Activity Centres.
- The 3Waters network has plans developed to cope with area growth.
- Greenspaces are safe, accessible and activated.
- New suburbs connected via active transport modes to existing suburbs, schools, and community facilities.
- Micro Forests and Orchard Gardens are planted in suitable urban spaces.

Strengthening Communities Together Strategy:
People ✓ Place ✓ Participation ✓ Preparedness ✓

Community Outcomes:
Resilient Communities ✓ Liveable City ✓ Healthy Environment ✓

Grassmere Development

Why this matters

Grassmere Development is a fast-tracked government project proposing approximately 1,400 new homes to be delivered over multiple stages. A key issue with the development is that commercial and heavy vehicle access is currently routed through residential streets, creating significant noise and traffic impacts for neighbouring residents. The current volume and type of vehicles is not sustainable for these residential streets.

As urban growth increases, this community will require additional amenities and greenspace to provide places for social connection and to help reduce the risk of social isolation. The area will also need integrated transport options, including roads, pathways, and cycling routes that safely and efficiently support the growing population. These connections should link seamlessly with Rutland Reserve, ensuring the two communities are connected rather than separated.

What the board will do:

- Advocate for improved flood-management solutions to support the creation of high-quality outdoor community spaces.
- Advocate for urgent site access from Cranford Street to reduce pressure on the local roading network.
- Advocate for any necessary works be carried out to remediate the local roading network from sustained heavy vehicle use.
- Monitor the ongoing impacts of the development on the wider transport network.

- Advocate for increased canopy tree coverage throughout the development and surrounding greenspace.
- Advocate for the retention of greenspace, such as parks, pocket parks, and community gathering spaces, where identified at the completion of the development.
- Encourage the community to actively participate in decision-making processes that influence outcomes for their neighbourhood.

How we will measure success:

- Outdoor spaces are of high quality and activated by the community.
- Commercial and heavy vehicle access is established from Cranford Street.
- The local roading network is repaired to address damage caused by sustained heavy vehicle use.
- Regular monitoring is undertaken to track vehicle movements on Cranford Street and across the impacted wider roading network.
- Submissions to the Annual and Long Term Plan for additional greenspace or community amenities.
- Tree canopy coverage is maximised in alignment with the Ōtautahi-Christchurch Urban Forest Plan.

Papanui Youth Project

Why this matters

As Papanui continues to grow and intensify, there is a strong need for a recreation space that is welcoming and accessible for all, with a particular focus on young people. Funding is available in the Long-Term Plan to develop a high-quality space in Papanui that prioritises youth while remaining inclusive for the wider community. The design should incorporate climate resilience, generous tree canopy, and thoughtful, inclusive features, with young people actively involved in shaping the space to ensure it reflects diverse voices.

What the board will do

- Advocate for a recreation facility that serves the community, with young people as a key focus.
- Identify suitable sites in areas of urban growth.
- Ensure this youth-centric project is co-designed with young people at the centre of the process.
- Support active youth participation in decision-making to shape the project as per their vision.
- Advocate for the retention of the funding and for the project to be brought forward in the Long Term Plan.

How we will measure success

- A site is secured in an area of urban growth.
- The project is co-designed with young people, ensuring that it is accessible to all.
- Young people are involved in the decision-making to fulfil their vision.
- Funding is retained and brought forward, as required.
- A project is delivered that provides a welcoming, accessible and inclusive space for all with a youth focus.

Strengthening Communities Together Strategy:

People ✓ Place ✓ Participation ✓ Preparedness ✓

Community Outcomes:

Resilient Communities ✓ Liveable City ✓ Healthy Environment ✓

MacFarlane Park

Why this matters

Revitalising MacFarlane Park and the wider area is important to the Board as it strengthens neighbourhood identity, safety, and everyday use. Upgrading outdated spaces and amenities, improving access, and creating a more welcoming environment will increase community pride and encourage families, young and older people, and visitors to spend more time in the park. The community also has clear visions for the future of this area and is actively progressing ideas and initiatives, demonstrating strong local commitment and momentum for change.

In the long term, the Board recognises the potential for cost-sharing partnerships to develop a purpose-built shared facility to create a central community hub. This could modernise existing facilities, strengthen collaboration, and support activity and connection throughout the day. Revitalisation also brings financial and long-term community benefits. Any improvements, offering better amenities, cultural expression, and flexible spaces, will make the area more attractive to visitors, generating increased foot traffic and bringing more income to local businesses. Together, this investment ensures the park becomes a more vibrant, sustainable, and valued community asset.

What the board will do

- Support the community-led work to achieve the vision for the park.
- Support ongoing planning and scheduling of improvements to enhance the park while minimising disruption to the community.
- Advocate for the retention of funding allocated for the playground upgrades and toilet/changing shed rebuild.

- Explore partnership funding, cost-sharing arrangements, and other opportunities to help the community realise its vision for the park.
- Advocate for the recommendations of the Crime Prevention Through Environmental Design (CPTED) report to be considered in the project.
- Advocate for increased tree canopy coverage within the park and surrounding streets.

How we will measure success

- The Board is recognised by the community as a supportive partner.
- A project timeline is established to support the coordinated delivery of current and future planned development of the park.
- Strong collaborative relationships are formed, resulting in cost-sharing partnerships.
- CPTED recommendations are incorporated into the project.
- Budget for any work on the park will be retained in the Annual and Long Term Plans.
- Tree canopy coverage in the park and surrounding streets is increased.

Strengthening Communities Together Strategy:

People ✓ Place ✓ Participation ✓

Community Outcomes:

Resilient Communities ✓ Liveable City ✓ Healthy Environment ✓

Westminster Park

Why this matters

Westminster Park is a six-hectare sports park that includes football and rugby fields. The park requires upgrading, with outdated spaces and amenities in need of renewal. Improving access and creating a more welcoming, user-friendly environment will strengthen community pride and encourage families, young people, older residents, and visitors to spend more time enjoying the park.

An older depot located on the north-facing side of the park is currently being considered by a community group for redevelopment as a Pacific Hub. The outcome of this proposal will help inform and shape the future development and layout of the park.

What the board will do:

- Advocate for the redevelopment of the old depot into a Pacific Hub, in line with community requirements, if progressed.
- Advocate for the retention of funding in the Annual Plan and Long Term Plan for all park upgrades and renewals, including the car park, playground, walkways, drainage improvements, tree planting, and a possible modest multi-sport facility.
- Advocate for the application of Crime Prevention Through Environmental Design (CPTED) principles in the park's development.

- Explore partnership funding, cost-sharing arrangements, and other opportunities to help the community realise its vision for the park.

How we will measure success:

- The Board is recognised by stakeholders and the community as a supportive partner in the park's development.
- A project timeline is established to support the coordinated delivery of planned park upgrades.
- Strong collaborative relationships are established, resulting in cost-sharing or funding contributions.
- CPTED recommendations are incorporated into the park's development, where appropriate.
- Funding for park upgrades and renewals is retained in the Annual and Long Term Plans.
- Tree canopy coverage is increased in the park.

Strengthening Communities Together Strategy:

People ✓ Place ✓ Participation ✓

Community Outcomes:

Resilient Communities ✓ Liveable City ✓ Healthy Environment ✓

Phillipstown Hub

Why this matters

The Phillipstown Hub plays a vital role in providing a safe, inclusive, and supportive environment for a diverse, high-needs community that relies heavily on accessible, locally based community infrastructure to support individual and collective well-being in Phillipstown.

The Hub has operated under temporary tenure from the Ministry of Education (MoE). The MoE has advised of its intention to dispose of approximately 0.92 hectares of the former Phillipstown School site under section 50 of the Public Works Act 1981.

What the board will do:

- Advocate for a permanent home for the Phillipstown Hub.
- Bring forward funding in the Long Term Plan to support a land/building purchase.

- Advocate for the continuation of the Phillipstown Hub and future growth.

How we will measure success

- Funding is brought forward in the Long Term Plan for land/building purchase.
- The Hub has a permanent home and can continue to grow to support the needs of the Phillipstown community.
- Action is taken to support the ongoing continuation of the Hub.

Strengthening Communities Together Strategy:

People ✓ Place ✓ Participation ✓

Community Outcomes:

Resilient Communities ✓ Liveable City ✓ Healthy Environment ✓

Greening the East 2.0

Why this matters

Continued urban intensification in the Inner City East/Linwood area is placing increasing pressure on already limited greenspace and tree canopy, with direct consequences for community wellbeing, environmental health, and climate resilience.

Without deliberate action, further urban growth will deepen existing inequities in access to quality green spaces in a community that already experiences higher levels of need. Protecting existing green spaces, securing new green space opportunities, increasing tree planting, and supporting community-led clean-up and care initiatives are essential investments in a healthier, safer, and more liveable neighbourhood. These actions help to mitigate heat and flood risks, improve biodiversity, and strengthen social connection and local stewardship, ensuring that growth is matched by infrastructure that supports people, place, and long-term resilience.

What the board will do

- Advocate that existing greenspaces are protected and improved, and new greenspace is procured and created in areas with identified deficits to support equitable access as urban growth continues in the area.
- Supports community organisations that are, or could become, guardians in developing existing and new greenspaces.
- Support and advocate for increasing the tree canopy to strengthen biodiversity and enhance climate resilience across the Inner City East/Linwood area.

- Explore community led and Council supported cleanup and care initiatives to help improve the safety, usability, and appearance of public spaces.
- Support opportunities for residents and local groups actively participate in caring for greenspaces, fostering local ownership, community pride, and neighbourhood resilience.

How we will measure success

- Submissions to the Annual Plan and Long Term Plan to protect, enhance, or procure greenspaces in areas with identified deficits.
- There is an increase in the number of trees planted, helping to strengthen biodiversity and support climate resilience, aiming to double the number of trees.
- An increase in the number of community organisations actively contributing to the activation and guardianship of existing and new greenspaces.
- Support funding provision for community-led and Council supported cleanup or care initiatives to be trialled or delivered to improve the safety, usability, and appearance of public spaces.

Strengthening Communities Together Strategy:

Community Outcomes:

Resilient Communities ✓ Liveable City ✓ Healthy Environment ✓

Community board funding

In Christchurch, Community Board funding is allocated to each Community Board based on population and equity. The NZ Deprivation Index is the tool used to measure the equity portion of the allocation. The Council resolved to use the formula of 60% population and 40% equity when determining the allocations to each Board.

The Waipapa Papanui-Innes-Central Community Board has three key funds available for allocation each year:

Strengthening Communities Fund (SCF)

An annual contestable round opens in April each year and provides funding for the period of 1 September to 30 August.

The purpose of this fund is to support community-focused organisations whose projects contribute to the strengthening of community wellbeing in the Christchurch city area.

Successful organisations will be those who demonstrate they are sustainable, strategic, community-focused groups who have a significant presence within their community of benefit. Successful projects will also clearly demonstrate their contribution to the Council funding outcomes and priorities.

Discretionary Response Fund (DRF)

Open for applications all year - 1 July to 30 June (or when the fund is fully spent).

The purpose of this fund is to assist community groups where the project and funding request falls outside other council funding criteria and/or closing dates. This fund is also for emergency funding for unforeseen situations.

Community Board projects (events and awards) are also funded from this fund.

Youth Development Fund (YDF)

The purpose of the Youth Development Fund is to celebrate and support young people living in the Fendalton-Waimairi-Harewood area by providing financial assistance for their development. The Community Board also seeks to acknowledge young people's effort, achievement and potential excellence in the community.

The Community Board will consider applications for the following activities:

- Personal Development and Growth - For example leadership training, career development, Outward Bound, Spirit of Adventure, extra-curricular educational opportunities.
- Representation at Events - Applicants can apply for assistance if they have been selected to represent their school, team, club or community at a local, national or international event or competition. This includes sporting, cultural and community events.

If you would like to know more about the Board's community funding, please contact any of the staff below:
