

Submissions table – Sumner sports pavilion, October 2024

ID	Is there anything you would like to tell us before we make a decision on the lease renewal, rebuild of Sumner Sport Pavilion and relocation of cricket nets?	Name
26834	As one who lives on this street but not involved in Rugby or Cricket. I fully support this proposal and if anything a slightly larger building to ensure future proofing would be advisable.	Tim Anthon
26833	I hope the new building will have community rooms for hire at a favourable rate for things like yoga. Also the guy who does the boxfit classes currently needs to be told to not let his aggressive dog roam free to attack my dog. A new building would be great because the current one looks very sad.	Malin Zachau
26805	I truly hope the beautiful old iron gate at the entrance is restored as well. It's such a shame to see it gradually deteriorating.	Nicola Barnett
26682	Looks good to me!	Kirsty Bush
26666	I am supportive of this proposal. I live opposite the park.	Marcus Thompson
26661	On Saturdays, parking is at a premium during sports time at the Sumner Sports Pavilion. Often cars park on my grass bern, on top of the fire hydrant, and on occasion across the driveway in Whitfield St. Campbell St is wide. I wonder if parking can be changed to angle parking by the Sports pavilion?	Sheryl Pearson
26629	This is greatly needed. The building and facilities are used by so many and an integral part of the community. The building is falling apart and it would make a huge difference to have it upgraded. More toilet facilities and an area to prepare food for catering would be a great addition.	Beck Ward
26627	As the building stands, it is evident that work is required to improve its beauty, and the enthusiasm to rebuild it as per the proposed plans is encouraging. It will make a huge improvement to the surrounding neighbourhood and already provides facilities for the local community but will be an even better asset once built. The renewal of the lease is also fully supported. There is no park land area lost, the size of the clubrooms does not encroach beyond the existing footprint. The children's play area should remain a safe area as the practise nets are to be moved up the other end of the park.	Raymond Steele
26622	I fully support the rebuild of a new pavilion as per the designs submitted and the renewal of the lease. The new pavilion can only enhance the landscape of the park which is well used summer and winter by varying codes. The pavilion is well used and is an asset to the Sumner community.	Heather Steele
26610	This is a great idea. They seem to have a growing club with more members coming on every year and the club is just too small to hold their players, visiting players and both teams supporters.	Shane Cowles
26608	I know the history of the original building but this will be an amazing asset for the community. The hole of Sumner will benefit for years to come from this new facility. I hope it goes ahead.	Andy Jordan
26604	The Sumner sports facility at St Leonard's Square is a great facility on that side of sumner town. Apart from providing sporting facility it also has cultural significance and history and encouragement for renovation is in order.	Sadat Abbasi
26603	The sports pavilion is the heart of the Sumner community. It is used year round for cricket, touch rugby, rugby, boxing, personal training, etc. So many people get so much use and enjoyment from it, it is vital it remains (or is replaced).	Ben Jones
26601	Sumner rugby is an awesome community environment not only for the people of sumner but for people throughout the country over the years. They are an inclusive club who open their arms to anyone and everyone.	Mark Harris
26596	Fully support the renewal of this lease, and 100% behind the rebuild of a new sports pavilion. This pavilion is the centre for community sport engagement for local families. The huge turn out of spectators young and old on game days shows the support the community has for this facility and club.	Mike Tyson
26586	This pavilion is an essential part of the community	Liz Beaglehole
26584	The sports pavilion is an important hub in the summer community	Steve Chant
26574	Very important for continuation of long standing clubs in Sumner area as shown by number of existing members and also for new clubs that could use the facilities	Michael Ryan
26572	This would be an amazing addition, not only for the cricket and rugby club, but for the whole community.	Johnny Wood
26551	It desperately needs a rebuild, I have no idea how the internal straits still meet Health & Safety standards. The kitchen is also very tired. No room for parents & fellow teams to all meet & celebrate each other.	Jo Holden
26537	Updated and relevant sporting facilities are key to communities. This building will be a welcomed improvement on the current building. 100% support this proposal.	Stuart Anderson
26535	The Pavillion has been a great asset to the community as a whole and the clubs that use it for over a century. Hundreds gather there on home games during the rugby season often across 4 generations. Sumner was the first metro club to include a dedicated childrens room for days with inclement weather so the younger kids could watch movies safely inside while the mums could catch up in the club and the dads and grandad's watch the game from the sidelines. I have hosted kids birthday parties there, had my 40th there and have been boxing in the gym downstairs for 12 years. Whilst it has been a great facility it is long past its use by date and only meets a small percentage of the building code. A new club facility would be wonderful and huge asset to community and spots alike. Bring it on !!!!	Neil Whithear
26530	That looks absolutely fantastic. It would be so good to have a more modern functional building that serves the community so well.	Nicola Reed
26527	Hi Sumner, representing too many sports and its always lovely to watch kids participating and passion towards sports. One day its going to give new heights to sports activities. 5 star rating for renewal and rebuild pavillion. Thanks <i>See attachment</i>	Sunny Singh
26523	A rebuild will look great and be safer as well as provide a useful space for the community, whilst nuturing the children who are the future of these sports by providing a purpose built clubrooms that will fit the needs of each club.	Melissa Smith
26515	This will be incredible for the community and should not even be a question! The current club is not suitable and a new club will benefit everybody.	Callum Brownlee

Submissions table – Sumner sports pavilion, October 2024

26506	I love the way the local kids are able to go down to the club, use the nets and be included in various activities the Sumner Cricket and Rugby clubs run. They do a great job of providing opportunities for our kids (and adults) to be active.	Paul Russell
26490	Given the community is funding this project it makes sense for the CCC to approve this application. We have recently moved into Sumner and have really enjoyed spending time watching sport and socialising at the Sports Pavilion, having new facilities will only enhance this area	Sam Carnahan
26483	The Sumner Sports Pavilion is a vital part of the greater Sumner Community, and is currently in need of an urgent upgrade to cater for visiting teams,spectators and current members. New Showers, toilets and the modernization of the building are long overdue and greatly needed. The Pavilion caters for a wide section of the community and is extremely well used, the upgrade would also bring it in line with some of our other local clubs like the Bowling Club and Surf Clubs which all have new and functional premises.	Jason Whiteley
26476	Please renew. SUMNER Needs this facility, for our children for our community wellness.	Yvone Caetano
26474	A great assett to Sumner. Welcoming the rebuild which is way overdue.	Donna McLean
26473	This is fantastic community project whereby Touch, Rugby and cricket will get to enjoy new amenities of a new new build and a fit for purpose facility!!!	Scott Ryan
26462	Would ove to see this! Sumner has a thriving sports community and the existing building isn't fit for purpose so this new facility would be a massive asset to the community!	Daniel Vann
26458	Excellent concept. Great seeing all year round usage, particularly young people and children 👍	Trevor Cook
