30286	<i>No feedback provided</i>	Zaki Badis	34 Kedleston drive, Avonhead, 8042
30287	Please be original here	John Abrams	169 Hawthornden Rd, Avonhead, 8042
30290	There is an increasing number of families with kids in the Hyde Park area, all in a similar age range 7-10. They go the Merrin school and all live very close to this park. It's be great if the next set of equipment could be focussed on slightly older kids. Also, any chance of adults exercise equipment? We need something to do to help us keep up with the kids!	Gavin Connell-Otten	60 Kedleston Drive, Avonhead, 8042
30291	There are now a lot of older people living in the area who would enjoy some of the outdoor exercise equipment which is used in Leacroft St Park.	Barbara Price	168 Hawthornden Road, Avonhead, 8042
30292	It's great the park has a baby swing but it would be great if it had 2 regular swings as well. Thanks	Katrina Knotts	Berkshire Drive, Avonhead, 8042
30294	Please consider putting in a seesaw like the one at hinds park, mid canterbury as it's amazing. Please make this playground different/unique as when all the same they are boring. You could add something to do with a plane as we are close to the airport and the park could be called plane park like elephant park with the elephant or train park in northcote rd papanui with the train or bulldozer park in riccarton with the bulldozer etc. Make it a place family's can stay longer and go to as a destination.	Sophie Robb	16a talltree ave, Avonhead, 8042
30295	Please include equipment suitable for primary school aged children, not just preschoolers. Thank you	Natalie Ekman	10 Inglewood Place, Avonhead, 8042
30297	Please please please enclose your playgrounds for toddlers - FULLY fence with a gate. Toddlers run and do not have impulse control. It is note safe without fences since most playgrounds are by roads or even rivers - Margaret Mahy for example is a beautiful playground but it's not safe when a young child can run for the river or roads. Play equipment designed for older kids needn't be fenced, but if for toddlers they should be. I find it a real shame we are needing to limit our playgrounds to mitre 10 or Bunnings since they're enclosed. I am gobsmacked coming from the UK where toddler playgrounds are fully enclosed for safety that none are here. Many parents are always asking on the parents FB groups about where there are fully enclosed playgrounds to use.	Harriet Hunt	44 Seymour street, Hornby, 8042
30301	<i>No feedback provided</i>	Benjamin Rodnyanskiy	25 abingdon court, Avonhead, 8042
30302	We use this play area a lot with our grandchildren. Would love a double swing for and adult and child to enjoy . A hut to encourage imaginative play eg shops etc Logs at different heights and things to climb up and on Nice picnic area Bike /scooter track . There isn't any play equipment at The huge Avonhead park unfortunately so this will be well used . Thankyou for doing up the playground .	Karen Voisin	79 Kedleston Drive, Avonhead, 8042
30304	<i>No feedback provided</i>	Christina Gourlay	34 Fenhall Street, Russley, 8042
30305	<i>No feedback provided</i>	Cameron Bradley	10 champagne ave, Yaldhurst, 8042
30308	It would be awesome to have some skating/scooter paths and features as my child loves to scoot and use her roller skates. Also incorporating some kind of nature play, huts, sensory gardens/paths places for children to explore. Looking forward to seeing what is created. Thanks!	Hayley Simpson	39 Kedleston Drive, Avonhead, 8042

30310	open ended playground please - not like all the modular ones in nearby places - natural wood etc for jumping climbing balance -	Gerardine Jones	25 Talltree Ave, Avonhead, 8042
30311	All the playgrounds in avonhead are very dated and sad looking! I'd love to see a mini tramp, a gated playground, adult/ child swing, water play spaces, shaded play spaces, nature play like swing in the trees, musical play aspects like at Barrington park, some sand pit area, scooter tracks, anything that sparks imagination in our youngest members	Sophie Garrett	59 parkstone Avenue, Avonhead, 8041
30314	Hyde Park is beautiful, but the playground is looking sad, so it's great to see some action here. The tree canopy is perfect for hot sunny days. My kids love the swings, but it's often frustrating that there is just one swing and a baby swing - two regular swings plus a baby swing would work better. Plenty of clumbing equipment is always appreciated, and a decent slide. Regarding the survey questions: You need to make more than one option selectable for the age range of tamariki question.	Andrew McPherson	3 Brockhall Lane, Avonhead, 8042
30425	The biggest hindrance to the park being used more frequently is poor maintenance and trimming of the lawns . They're not cut short enough and not cut frequently enough	Myron Friesen	14 Claverley Gardens, Avonhead, 8042
30426	Please consider adding a joint adult/child swing - there are so few of these in Christchurch and they are amazing creations. We would love a couple of slide options - a large and smaller one for younger tamariki. Also a roundabout/spinning feature would we great.	Clare Grimwood	69 Cutts Road, Russley, 8042
30690	<i>No feedback provided</i>	Jan-Yves Ruzicka	77 Kedleston Drive, Avonhead, 8042
30817	When recently took n my daughter to this space from her grandparents' place nearby I was disappointed to see what little equipment was suitable for her age. We've gone to other playgrounds in the city which have natural play items or a stage like set-up which have been 10x better than this type of equipment at Hyde Park.	Xin yi Wong	21 Hounslow Street, Ilam, 8041
30868	As a 15 year I old I still use this park on a regular basis with friends and family as I see others do .	Liam Murray	10 Claverley gardens, Avondale, 8042
30886	Some play equipment/set-up which enables more supervised but independent play for toddlers would be great. Currently the playground at Hyde Park requires intensive adult involvement with my two-year-old, and his grandmothers particularly have expressed unease about taking him there as they're worried about his safety.	Rachel Fernando	18 Claverley Gardens, Avonhead, 8042
30932	replace like for like is good, what equipment that is there is used very well by a variety of CHILDREN, never seen tamariki or whanau there but a wide range of multi cultural children & parents use the playground. We could consider a changing some play features to focus on nature play and incorporating climbing elements or hut-like play features. This could include swings in the trees. - this also sounds good. footpath is fine, the tree roots will make it bumpy anyway I saw your consultation sign yesterday while it was floating away in our current winds, I have no idea where it was attached to. Also down in the park is a very big sized branch. We use the park every week and enjoy it greatly the equipment and the trees and the location, plse don't change it too much or "improve" it which has happened in other parks and they just end up being worse off eg Avonhead Park. thanks for asking for input, they didn't at Avonhead just went ahead and buggered it up.	Heather McGuigan	2/43 Kedleston Drive, Avonhead, 8042
