Te Ara Kuaka Brighton Mall upgrades - feedback report

Dec 02, 2025 - Feb 01, 2026

Q1 Do you support the new paving along the mall?

Multi Choice Yes

Q2 Do you support the creation of a central gathering area?

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text

1. TIDE New Brighton Business Association is supportive of the plan for new paving, seating, planting, lighting, wifi and security cameras. However these items are not a build and walk away - they all need regular maintenance and monitoring. Is there a budgeted maintenance plan? Will the maintenance be included in current contracts that are already inadequate in a coastal environment?

2. We are concerned that if the development of Pierside takes place then damage will be made to the new paving. Has anything been done to mitigate this? Have assurances been made by the developers, in writing, that they will repair any damage in a timely manner e.g. 30 days?

3. We hope that the lighting is an improvement on the current lighting that is not bright enough for people to feel safe. We are aware of the impact of street lighting on birds but hope there are enough dark areas around in the sand dunes.

4. There needs to be regular monitoring of the mall by security personnel or police to ensure enforcement of alcohol ban around the mall and wider area especially when we have the new seats and wifi.

5. Seagull proof bins are crucial - and plenty of them. We know CCC has removed most of the bins from along Marine Parade but we would like more and we would like them emptied regularly.

6. We have an issue with lack of signage directing people from He Puna Taimoana, the pier and seaside park down to the mall. The Village Green huts are not enough to draw people down the mall. Good sized, anti-vandal signage is crucial for the economic survival of the businesses in the area.

7. We had hoped for a large public art piece to be included in the budget and design to draw visitors. The current design is adequate but is not going to be a huge draw to the area.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text

We are comfortable with the change except when the market is on.

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text We support better lighting in the area, particularly at night, to make the area safer to travel through. Please ensure that the paving is not slippery, particularly the transitions from one surface to another.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Spokes strongly supports changing New Brighton Mall into a shared zone. Many of our members have assumed it was already a shared zone and regularly bike through here. We also support the reduction in speed to 10km/h to make it safer for all users. Spokes also strongly supports the additional staple bike stands at both ends of the mall. The west stands are cramped between the light pole and the rubbish bin limiting their usability. The north-east bike stands usability is restricted by the service box. They should be moved at least 1m further north. All stands should be wide enough to fit two e-bikes comfortably between each staple and allow cargo bikes to be securely locked at the end of the stands with enough space to safely load and unload young children. These family cargo bikes are becoming increasingly popular in Christchurch and New Brighton.

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text

- While the community supports a safe and secure mall, members of the community have raised questions about the rationale of security cameras. In particular, in circumstances where current police response to existing call-outs are limited anyway, will additional security cameras be supported by police responses? The community also has questions about the privacy of information collected by the cameras e.g. what information is collected (images, sound); who has access to the information; how will it be used; how long will it be retained? Is there any evidence security cameras reduce crime? The community asks that these issues be considered before any cameras are installed.
- The community would like the gifted Maori name to be used together with the official name in BOTH signage AND the central gathering area.
- The community have raised concerns about the new drainage grates potentially causing accessibility issues and asks that this be considered in the design and implementation.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text We support improved connectivity through Brighton Mall and can see how a shared zone could work well on quieter days. However, we do not support unrestricted shared-zone use during busy market and event days, particularly Saturdays during the New Brighton Seaside Market.

On event days, the mall is extremely crowded, with prams, dogs on leads, and large numbers of small children. Even under the current pedestrian-only designation, we have experienced near misses and some minor accidents when people cycle through the mall. Allowing cycling, skateboarding, and similar wheeled devices in these conditions presents a clear health and safety risk. Low-speed requirements are difficult to enforce in dense crowds.

If the mall is redesignated as a shared zone, we strongly recommend that restrictions on cycling and wheeled devices apply during market and major event days, and that this be supported through the market's licence to occupy.

We also seek clarity on whether shared-zone access would include roller blades, and roller skates and more worryingly e-bikes, and e-scooters, as these raise similar safety concerns in high-pedestrian environments.

A conditional shared-zone approach — allowing wheeled access on low-use days, with clear restrictions during markets and events — would better balance accessibility and pedestrian safety.

Short Text Emily Te Aho

Tēnā koutou,

We are writing to provide feedback on the proposed mall upgrade. We are very supportive of the project overall and are pleased to see the upgrade progressing. The proposed paving and design improvements are a welcome investment in the area.

The main concerns we wish to raise relate to the proposed locations of the bike stands and rubbish bin at the western end of the pedestrian mall.

From our experience managing the New Brighton Seaside Market and large event days, the current locations present several practical issues:

- **Market operations:** This western area is regularly used for food trucks. Fixed infrastructure such as bike stands and a permanently located rubbish bin would restrict vehicle manoeuvring, reduce usable space, and limit the capacity and flexibility of the food area, which is essential for safe and efficient market operation.
- **Pedestrian safety within the mall:** The proposed bike stands are positioned well inside the pedestrian mall. On busy market and event days, this area becomes heavily congested. We have consistently observed that when bike parking is located deep within pedestrian spaces, people tend to ride their bikes through the mall to reach it, creating avoidable safety risks in a high-foot-traffic environment.

We understand that the western end of the mall is intended to eventually transition as part of the Oram Ave extension, but in the meantime this space remains part of the pedestrian mall and continues to function as a heavily used pedestrian zone, particularly during markets and events.

We have provided an image showing alternative locations for both the bike stands and the rubbish bin, which we believe would better balance cyclist access, pedestrian safety, and the functional requirements of markets and events.

In addition, we would like to raise a broader concern regarding pedestrian and traffic safety along Marine Parade. Even with the proposed reduced speed limit, this area remains challenging during busy days. Based on our experience, full pedestrianisation of Marine Parade between Hawke Street and Beresford Street would be a logical next step. For The New Brighton Seaside Christmas Parade Day, Marine Parade is closed through to Lonsdale Street, and both vehicles and public transport have continued to function without significant issues, even on very high-attendance days.

Aside from these matters and the concern we have raised about shared use in the submission form, we are very supportive of the mall upgrade and appreciate the opportunity to provide feedback.

Ngā mihi nui,
New Brighton Project Inc.

Long Text

Stepping back:

why would people choose to travel to New Brighton?

At present, New Brighton feels like a longer drive for a slightly different shade of Christchurch. Beyond the hot pools, there's little that actively motivates a family to choose New Brighton over closer, more sheltered, and more engaging destinations.

If the goal is increased visitation, foot traffic, and retail spend, New Brighton needs to be positioned as a distinct destination, not just a coastal shopping strip.

1. A destination-scale playground, not a local one

Upgrade the playgrounds into a nautical-themed adventure park that genuinely rivals Margaret Mahy Playground.

Margaret Mahy works because it is:

Large enough to justify travel

Free, high-quality, and memorable

A place families plan a day around

New Brighton should lean into its coastal identity—ships, ropes, towers, water play, dunes—something children talk about afterward and ask to return to. Without a landmark attraction, families have no anchor reason to come.

2. Weather-resilient design is essential, not optional

New Brighton is exposed to high winds, and climate trends suggest this will only intensify. An open-air mall model actively discourages foot traffic when signage, seating, shade, and even walking become uncomfortable.

If the goal is retail success:

Spaces must be sheltered, enclosed, or wind-buffered

Comfort directly correlates with time spent and money spent

People shouldn't feel like they're "braving the elements" just to get a coffee or browse shops. Retail thrives where people linger—not where they endure.

3. Give teenagers somewhere to go

Teens are currently underserved. They have:

Time

Energy

A need for social spaces

Very little money

This means investment should focus on free, high-engagement infrastructure:

Skate parks

Courts

Climbing, parkour, or multi-use youth spaces

When teens have nowhere to go, they disengage—or leave. When they do have places to gather, they bring

movement, and identity to an area. Like it or not, they are a visible part of a vibrant town centre.

In summary:

People don't travel for "nice enough." They travel for:

Unique experiences

Comfort

Places their children and teens actually enjoy

Without a clear destination pull, New Brighton will continue to struggle to compete with closer, better-sheltered, more engaging parts of the city.

Long Text
What good is putting in bins, paving, moving trees, putting in seating and lights? You are spending a bit of money but it needs a whole lot more spent on it. It's not about lighting, seating bins and trees- that is all a waste of money when no one is going there in the first place... put something decent there that puts chch on the map and spend decent money or don't do it at all. The shops are all rubbish too. Make it the landlords move on. It's looking rough and what your proposing is not enough to touch it.

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Really hope the security cameras actually get monitored. There is a liquor ban for the area but it is not enforced as drinking alcohol (apart from Southpaw) continues to happen in the Mall. More active cameras might deter the continual tagging and occasional retail window smashing. Also better signs about the liquor ban. More seats around the central area. Set a date for stopping vehicular traffic coming through Marine Parade between Hawke and Beresford apart from busses and pedal or ebikes. The only other aspect is improved lighting.,

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text The central gathering feature paving area won't look right when a large portion of it is covered by the Southpaw Brewery outdoor seating area. It will feel unbalanced and be hidden. It would be good to have some shade sails in an area, and some other design to aid as a wind buffer for the easterly wind, especially if the area is intended as a gathering space.

Long Text These new features look great, however, my concern is the frequency of keeping the mall clean and tidy. If we get all of these, I really hope that the mall is cleaned daily with a street sweeper to keep it looking great, removing excess sand build up (on the pathway and in drains). Please help New Brighton look smart and well-cared for from a council point of view, not just make it look pretty and expect it to stay like this without any regular maintenance.

Multi Choice Don't know / not sure

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Don't know / not sure

Q5 Do you have any comments about the changes?

Long Text For me, the New Brighton redevelopment is crying out for more family-friendly amenities, so people do not have to trek into town. If I was developing the area I would have:

An indoor shopping mall (mini-Riccarton).
A cinema/indoor bowling complex.
Diverse eateries.

The area has tons of potential, but many of the existing shops look tired and run down.

If you want to redevelop the area would be better to go hard out, rather than just half-hearted!

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text I'm not sure about relocating the palms - how essential is this? If there's a way to incorporate them, and leave them in place, this would be preferable . They are mature trees, have a great deal of presence, and it would be sad to lose yet more of the existing landscape.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text GREAT idea, especially given how few people actually adhere to the current pedestrian only restriction!

Long Text Is the lighting being installed considerate of light pollution impact?

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text It's taking a chance in regards to behavior of those on skateboards and bikes. However, these are the modes of transportation taken by a great many people, and not of one demographic category. It is necessary to engage the greater city population to come to New Brighton.

Helpfully the whole shared space has been designed for the ample width required, regardless of left/right/ or centre access.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Great to see the investment into what could be a gem to the city having a accessible seaside attraction, with the pier, hot pools and beach. A real opportunity for tourists to have a reason to visit Nee Brighton.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text I don't get the shared zones, as this creates an unnecessary hazard in what should be a pedestrian friendly area without having to complete with bikes, scooters, e scooters and skate boards. At the end of the day there are many other amenities for these activities with the skateboard park at the rawiti domain, cycle ways infrastructure and tracks all through the city, there is just no need to make this shared.

Q10 Name of organisation/business

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text To be honest unless you create a reason for people to visit the mall/ Brighton : Like a Dress Smart Outlet store (as in Hornby) then your only putting lipstick on a pig.
Don't get me wrong the changes look great but you need a reason to draw people to Brighton and support the retailers , coffee shops and restaurants. Otherwise it will continue to die a slow death.
Create a reason to businesses to come to Brighton. These changes won't do that !

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Love the seating around the palm trees .
Paving is beautiful. It needs to be able to be cleaned regularly thou and rubbish bins emptied regularly.
Although if you make the place to comfortable the alcohol fuelled folks with sit around the place and that's not pleasant to see .

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text No , no , no , I like it's a walking only area . People can carry their skateboards or push their bikes through the top part of the mall .
Please don't change to a shared path .
It's so relaxing not to worry about watching for bikes / skateboards.

Q1 Do you support the new paving along the mall?

Multi Choice Yes

Q2 Do you support the creation of a central gathering area?

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text There should be a large and security monitored bike parking lot. Security as in cameras not staff. Maybe have rented out more secure bike locks. This will make it more bike friendly for the whole suburb so that there will be less traffic and less parking for those that require it.

I think the 4.2 million will be well spent to finally see some life in Brighton in a central location. Build it and they will come.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text The surrounding areas should have physically seperated and clear bike paths from regular road users for safety and confidence of bike riders of all ages.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text I agree somewhat, all except "free" wifi, that's still funded by tax payers. It's cyber criminals playground for scamming people, especially tourists who we'd rely on in the area. I agree to additional security measures as the entire area is dodge after dark.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Every time a pedestrian zone is changed, people get hurt especially children and mums with strollers. What enforcement measures could be placed to prevent speeding bikes, e-bikes, and e-scooters etc. This is not a good suggestion.

Q1 Do you support the new paving along the mall?

Multi Choice No

Q2 Do you support the creation of a central gathering area?

Multi Choice No

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text The palm trees do not need to be removed!
This upgrade could be made without the need for this.
The council should also prioritise the safety and repair to the estuary edge before making something 'pretty'

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text It has already been a shared zone

Q10 Name of organisation/business

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text
It is unfortunate that the stage in the Village Green for live music and other events is not directed back into the mall facing Southpaw. The current set up provides too much separation between the Village Green and people enjoying a drink in the outdoor area where patrons can drink a beer outside Southpaw. To provide a better connection the council should designate an area within the village green itself where patrons can consume their drinks procured from Southpaw, or ideally extend the permitted drinking area outside Southpaw to encompass the Village Green, noting that Southpaw is a craft brewery and does not attract binge drinkers and does not operate late night hours. The only alternative would be to reconfigure the position of the stage.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Will there be more rubbish bins? Is spending this money on repaving what's already there really what New Brighton needs? So many people tell me they are put off visiting New Brighton because the roads are rough, the car park is rough, and there are so many abandoned commercial buildings, could we do something about that? I'm all for beautifying the mall, but this feels a little short-sighted, and the design itself is a little dated already.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text If it does become a shared zone, make sure there is bike parking.

Long Text The road should go back to its original state with having no vehicles able to drive through. Making it pedestrian only.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text having it as pedestrian only will continue to keep it safe for people to not have accidents with cyclists. It will maintain the calm nature of the mall.

I am buoyed that work to improve this area is finally happening. In 2020 | organised the Brighten Up Brighton event and as part of that some lamp poles and seats were painted, however we did not get to finish them all. I requested that the council finish work several times and it never was. It was sad that the community worked hard to start what the council should have been doing in the first place, the least the council could do was finish it off, but no. If you agree to this new upgrade PLEASE maintain it for life and do not neglect it.

The plan - Keep things simple. How much will additional design cost? Do we need to supply internet when it is already available at the library. Could budget be added to extend the drainage renewal the entire length of the mall? It's badly needed.

I would like to see both the gifted name and the name New Brighton both spelt out in the pavers, keep everyone happy.

The seats are lovely but there are a few considerations to think about. There used to be circular seats years ago and it's very hard to sit around them as a family or with friends, and be social. The current seats are more social in that respect.

I also have concerns about tree roots affecting paving. There are currently cracks in the asphalt around some of the palms from roots. I also question why the extent of the paving crosses into the Oram Ave extension scope area. If this goes ahead will that paving be affected?

There are also less rubbish bins in this new plan, I would like to see more added please. When New Brighton has a busy day our current bins always overflow.

I also hold concerns that any new improvements could be damaged when construction and demolition of surrounding buildings occurs. Please safeguard against this.

Submission for Te Ara Kuaka Brighton Mall Upgrade:

Notes:

General:

Christchurch City Council Accessibility Advisory Group:

Has the Christchurch City Council Accessibility Advisory Group had the opportunity to consult and give feedback on this proposal?

If not, I think their input would be very valuable.

Parking:

Designated accessible and mobility parking spaces need to be provided closer to the Mall. They need to accommodate vehicles including vans and ensure access to wheelchairs, ramps and other devices.

How will these be incorporated?

Safe, secure and easy to operate 'bike stand' systems will be required and I hope to see this prioritized too.

They will need to be compatible for use with bikes, trikes, and scooters.

01. Paving:

I like the story and relevance of the weaved pattern.

It is important to ensure that the main paving, additional designs and grated drains do not create an uneven surface, slip or trip hazards, obstacles or rolling resistance that make the navigation difficult for people using wheelchairs, long canes, crutches, buggies, prams, walking frames etc

Any adjacent areas that connect to the Mall must do so seamlessly for the same reason.

Ensuring the designs contribute to a continuous accessible path of travel, support wayfinding and don't create confusion is also a relevant consideration – one that holds even more weight when considering the change to Shared Zone designation.

In my opinion the design may need to be modified, particularly if the Shared Zone designation goes ahead or is likely to go ahead in the long-term plan.

02. Central Gathering Area:

I support the central gathering area concept and the incorporation of cultural designs. Again, feature paving designs or etching will need to be done in a way that does not create an uneven surface, slip or trip hazards, obstacles or rolling resistance that make the area difficult for people using wheelchairs, long canes, crutches, buggies, prams, walking frames etc and any connecting areas must do so seamlessly for the same reason.

What and where will sunshade and weather protection be?

In the image provided, the streetlight/flag poles and seats blend into their surroundings. This creates a crash hazard risk for all users and particularly those who are blind or have

low vision. There needs to be more contrast created between these features plus the ground immediately surrounding them, and the rest of the area.
Considering both day and night-time visibility.
The poles should have an extended bumper base, so they are detectable by canes.

The image also shows tables with chairs and umbrellas, and picnic style tables - these may cause a hazard if they are positioned in the pedestrian zone. The umbrellas would be a hazard if they are at head height when up. Tables should be accessible to all people. Picnic tables are not an accessible seating style.

03. Seating Around Existing Palms:

I support seating around the remaining palms, assuming that they are well maintained and will not drop fronds etc that could cause injury.

The image shows the design to include heel space and arm rests which make it easier for people to stand up, I would like to see that implemented.

Suggestions to enhance safety and accessibility would be:

To increase contrast between the furniture and the surrounding area to create better visibility of edges and overhangs.

To incorporate different seat heights and have backrests.

I am curious about what will be planted in the raised planters and if/how these planters could be used to support the ecosystem and the community.

04. Streetlights, feature lighting, WiFi, surveillance cameras:

Streetlights:

I support the installation of new streetlights provided that they are positioned and installed in a way that is safe for all users.

As previously mentioned, in the image provided, the streetlight poles blend into their surroundings. This creates a crash hazard risk for all users and particularly those who are blind or have low vision. There needs to be more contrast created between these features plus the ground immediately surrounding them, and the rest of the area.
Considering both day and night-time visibility.

The poles should have an extended bumper base, so they are detectable by canes.

While obviously essential to ensure visibility and safety at night and during other periods of low light, does that require all of the lights to be on all night?

Could sensor capability be possible? Then if safe and when appropriate, having some of the lights set to sensor could reduce the impact of light pollution and energy consumption when and where possible?

Feature Lighting:

If this was installed I would want it to be low intensity, typically warmer light temperature, possibly capable of different colours to be customised for events.

I would probably want it to be used during events only.

While this can be visually pleasing for humans, frequent use of uplighting on trees, garden beds etc has a negative impact on plant growth and lifecycle, soil health, wildlife, pollinators and so on. It also increases the light pollution and obviously energy consumption.

WiFi:

I support public WiFi access in this area because we still have significant digital inequity in this country. Access to the internet and data is a safety consideration as well as an inclusion and accessibility consideration.

Surveillance Cameras:

I would like to understand:

What measures and how many cameras already exist in this area?

Is there a need for additional cameras?

How existing and proposed cameras will be used and who by?

(Council? Private developer/business? Central Government Agencies?)

If any footage is stored?

If so, where is it stored and for how long?

Who can access it?

What security measures are taken to protect the data/footage?

Additional Upgrades:**Drain upgrades:**

I support the drain upgrades for increased capacity.

The new grated drains should not create an uneven surface, slip or trip hazards, obstacles or rolling resistance that make the area difficult for people using wheelchairs, long canes, crutches, buggies, prams, walking frames etc

Rubbish bins:

Will these have recycling, food waste separations?

To improve safety and make sure these are easily identifiable and frequently used by all Mall visitors including those that are blind or have low vision, there needs to be contrast created between these features and the rest of the area. Taking into consideration both day and night-time visibility.

Drinking fountains:

It would be great if these could be accessible to people of different heights, wheelchair users and accommodate bottle refilling.

As both leashed dogs and assistance/service dogs are welcome in this area, including dog bowl features would be great too.

(Has toileting of assistance/service dogs been considered in plans for the overall area?)

To improve safety and make sure these are easily identifiable and accessible to all Mall visitors including those that are blind or have low vision, there needs to be contrast created between these features plus the ground immediately surrounding them, and the rest of the area. Taking into consideration both day and night-time visibility.

Signs:

I have heard feedback from some long-time residents that the Mall is not 'Brighton Mall' - it is 'New Brighton Mall'. They feel strongly that this is something to 'get right' and any reference or signage should reflect this - Te Ara Kuaka New Brighton Mall.

I would like to see signs that have high contrast, large, clear print.

Any feature signs that might tell the story of the Mall or the area for example, should be in English and Te Reo Māori.

They should also include tactile embossed print (not engraved) and Braille.

QR codes (or similar) should also be available to link to a video with NZSL and audio, an easy read version and other language versions.

Relocation of the Palms:

Is it responsible to relocate them? Or should they be destroyed?

If it is appropriate to relocate them and they will not be relocated within the council parks/gardens locally, then I would like to suggest they are offered to Te Tihi O Maru/Timaru - who have the largest and southern-most cluster planting of these Phoenix palms.

06. Pedestrian Zone change to Shared Zone:

I can see the benefits and positive potential for this change.

I also have accessibility and pedestrian safety concerns.

The Mall is already the most direct, convenient and accessible route for many people. Even when not the most direct for some, it is a 'desire path' because much of the surrounding infrastructure and pathways still need repair and/or upgrades to be fully accessible.

For some people, being able to ride into and through the Mall enables them to access our local village, community, services, businesses, employment etc.

It is also important to note that many pedestrians can feel unsafe in areas where vehicles, cycles, scooters, skateboards use the same area as pedestrians.

I think with sensible speed limits, rules, and signs, respectful use of skateboards, scooters and cycles could happen now given the lower volume of traffic.

However, I have concerns that the current upgrade design proposal is not 'future-proofed' for Shared Zone designation when there will be increased pedestrian, cycle, scooter, skateboard traffic in the near future.

I would be interested to understand how essential Shared Zone and Universal Design principles have been and could be further incorporated into the design as I think it needs further consideration with this in mind.

In my opinion, the current version of the weaved paving design may not be compatible with a busy Shared Zone and could add confusion to flow and wayfinding once there is increased pedestrian, cycle, scooter and skateboard traffic.

If that is the case, I hope it would be possible to modify the paving design so that the weaved pattern and story can still be a feature.

Considering Cashel Mall design which was given as an example, the paving design establishes zones for continuous accessible path of travel, street furniture etc using colour contrast and texture.

Cashel Mall also has its main gathering areas at the ends of the Mall, rather than in the centre, which makes it easier to establish and maintain an obvious and safe continuous accessible path of travel end to end.

I would prefer to see the paving design plan modified to ensure safe, accessible shared use of the entire area.

I would not support the addition of a specific cycle, scooter, skateboard lane as I believe this would increase risk and create confusion about pedestrian priority and legal right of way within the shared zone.

I would support changing the mall designation to 'Shared Zone' provided that the design, infrastructure, rules, signage, markings (paving, paint, TGSIs etc) and features establish and support the safety, accessibility and legal priority of pedestrians.

A continuous accessible path of travel for pedestrians needs to be established and must accommodate all pedestrians including people of all ages, pregnant people, disabled people, wheelchair users, Deaf, blind and low vision people, people with disabilities, impairments, injuries and chronic health conditions.

As I get older and my knee gets progressively worse, I find the fancy paving problematic to negotiate. The tiles tend to be more uneven and more slippery than asphalt. The patterns go right across the whole area to the shops so there is no alternative path. You are replacing the current seating that works for older people with seating that looks less functional. It is hard to see from the information if water will drain away easily and if the height is appropriate. There are metal rests in the middle of the seats, but if you need to lever yourself up it will be into other people rather than into a clear space and the seat is curved so you are less likely to end up back on the seat if something gives way. Where you have kept the old seat design in front of the village green there are no arm rests or shade. The design does look better and will work for the able majority.

Submission re New Brighton Mall Upgrade

Gavin and Eleanor Bodger

01-02-2026

Tēnā koe

Thank you for the opportunity to make a submission re the New Brighton Mall upgrade.

New Brighton, being recognised as the wonderful resource it is for the city and country has been a long time coming. It is now starting to look brighter, tidier and inviting for those who live here, visit or wish to invest in the area.

Investment is a catalyst for the next stage of growth, development and the implementation of services that will meet the needs of residents and visitors. It is clear New Brighton has some major draw cards, He Puna Waiora, The Pier and Library. These need to be built upon and the time is right to do so.

There are two major factors that we believe need serious consideration and that should guide decision making:

1. Lack of local services, particularly in terms of hospitality, and the percentage of spend going out of the area.
2. The community nature of the area (which is adversely impacted by the previous point)

As is well understood, an overwhelming percentage of resident spend is spent outside the area, meaning residents must travel to have their everyday and social needs met. To be clear, we are not suggesting a return to 'good old days' where all needs were met locally but there is a need for sufficient services to be of attraction to locals and visitors alike e.g. after-hours hospitality etc.

The other significant factor in consideration is that fact that the wider area has well engaged communities e.g., South Shore, South Brighton, New Brighton, North Beach; yet the current Mall does little to build upon this. While this is emerging, there is further potential to bring the wider community together and welcome others in.

The community operated Village Green and the significant investment by Martini Investments, are key considerations when it comes to the next steps. To maximise the project's potential the needs of the Village Green and the investors need to be considered and incorporated where possible. There is a problem. This project with a spend of \$4.2m, brings to mind the elephant in the room – the New Brighton Master Plan which has been approved, embraced and anticipated following widespread community engagement. The Master Plan needs to be progressed; the impediment being the

SaveMart building. While we appreciate this issue is outside this consultation it is integral to what is happening, or not happening, in the New Brighton Mall and needs to be resolved. Resolving this in a way that is consistent with the Master Plan would give significant wings to this New Brighton Mall upgrade.

The following are our comments and are based on the consultation document.

01. Do you support the new paving along the mall? In essence we support the paving but given that associated private building and development has not been completed prior to this being done, is like hanging the curtains in the room before the wall lining has gone up. What damage might be done to it in the process of development and build? Might it compromise future design and flow?

02. Do you support the creation of a central gathering area? We don't support a centralised gathering area for the following reasons:

- once again, it's putting the horse before the cart. We don't know how the Village Green will play out. At the moment this is nice space and sheltered from many winds;
- we can't afford to sacrifice the greenery. It would be difficult to replace such stately trees if the gathering area does not work out;
- exposure to the prevailing easterly is very unpleasant and does not invite lingering. This is a decision that can be revisited in the future;
- we have the existing 'sound shell' by the library – which is not so exposed to the wind now that the library ramp and wall have been constructed and, while not commonly used, is functional e.g. used during the annual Duke Festival of Surf and other regional events.

03. Do you support the new seating around the existing palms? We do not support the seating around the trees for the purpose of creating meeting spaces but for beautification purposes they would be useful. Seating facing outwards like this may work in a city centre where there is no expectation of connection with others. In a community such as New Brighton, we want to create a sense of invitation to participate and connect. We need small grouping areas where we can face others, giving us the opportunity to engage with them.

04. Do you support the new streetlights, feature lights and other enhancements?

05. Do you have any comments about the changes?

We support new streetlighting and sadly, due to vandalism in the area also support cameras. Cameras detecting antisocial behaviours need to be monitored and offences actively followed up on. We also support seagull proofing rubbish bins. We're not sure about the benefit of public Wi-Fi.

06. Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

07. Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

We are active cyclists. Eleanor also works in the older person's sector. There is considerable tension with shared zones, and we are not sufficiently appraised of the current data surrounding these issues. What is the accident rate in Cashel Mall? Not only do older people and many other pedestrians find skateboarders and cyclists unnerving, but their actions are also often unanticipated by those on these more rapid forms of transport. Biking and skating slowly is harder than going faster! New Brighton Mall is also narrower than Cashel Mall so there is less room for those riders to manoeuvre. We think the issue needs further investigation and if declined now, can be reviewed at a later date. Once again – where is the City to Sea Pathway, the feeder for this area? Is it going to be progressed under current funding constraints?

Conclusion:

Sound decision making at this point of time is crucial for investment in New Brighton and for its long-awaited revitalisation. We think further consideration needs to be given to the points we have raised.

We appreciate that submissions need to be considered and that as a result some adjustments may be needed. It is important however that action is not stalled and that the allocation of funds remains for the project.

The lack of an attractive, inviting Mall has done little to dampen the enthusiasm and love of the area by local residents. Let's make it a place that everyone can enjoy, want to come back to, and that it is another 'feather in the cap' for the wider Christchurch area.

Q1 Do you support the new paving along the mall?

Q2 Do you support the creation of a central gathering area?

Multi Choice No

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Stop focusing on the top end and actually look at the whole mall stretch the other existing retailers could also benefit from having the whole mall renovated not just the top end.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text the intention is good but the execution will be nil, as it doesnt really matter as people already use it like it is shared so why bother with the designation also bare in mind we still have lots of elderly who might require extra space to move around adding large amounts of new traffic could spell potential for accidents.

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text

I love all of the proposed changes.
Is the paving design done by mana whenua?

Could additional bicycle parking and push scooter parking be added around the Village Green area and the eastern end of the project area, please? How about a dedicated area for e-scooters too, so they don't block access for other users of the space?

I saw a question about a path for wheeled devices to protect pedestrians. I like the ideal of using different paving colours or textures to indicate a faster moving area for wheeled devices, if the paving design could be modified to include that, but understand that pedestrians always have right of way and wheeled devices will (hopefully) be travelling no faster than 10 km/h (I support the reduced speed limit of 10 km/h).

I saw a question about blocking the easterly wind. Could some low-cost bunds/plantings/sculptures be added that provide relief from the wind?

What about protection from the sun? Shade sails?

Overall it is a great improvement and I look forward to using the renewed space.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text

I 100% support making Brighton Mall a shared space similar to Cashel Mall. It makes sense to allow micro-mobility devices to use the space at slow speeds (10 km/h). Please provide sufficient bicycle and scooter parking to allow people to use the shops and eateries.

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text I would love to keep all the palm trees, I don't see a reason, why they should be removed. Additional I would also love to plant some more palm trees in New Brighton to support the beach vibe feeling.

But in general it would probably make more sense to bring all the buildings along the mall back to live first, before you start the work at the paving. Otherwise you have to it twice.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Q2 Do you support the creation of a central gathering area?

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Security cameras for criminal activity, Paving may move with shifting substructure, it would be good if it was skateboard and scooter friendly. Also there needs to be a better pedestrian solution between pierside and the mall, a pedestrian crossing will be too disruptive and potentially unsafe for children due to the high traffic and the inviting layout of the mall for children.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text If needed, what about 2 Laneways, at the back of the mall buildings (where deliveries, bikes, scooters and skateboards can roll)

Q10 Name of organisation/business

Short Text

Q11 Your role

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Not a great idea to remove the staid as a pedestrian area. Shared will just lead to vehicle access and less pleasant for pedestrians.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text The risk is when changing to shared is that it becomes easier to then ok cars too. It's one of our very few areas with no car access and that makes it great. Ensure that vehicle access will never be added and particularly no car parking on this section. For example the recent Lichfield upgrade in the city centre has made it unpleasant to walk on as the council has no parking enforcement and the street is allowed to function as a car park.

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text This is not an upgrade; it's fixing what's been left to rot for a very long time. What WILL make a difference is revving up the land owners and getting some serious pressure on them to decide on moving Brighton forward and not idle for another 30 years. You can not make a silk purse out of a sows ear.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text I do not believe this will work. Humans are too arrogant at the moment to use shared areas. The new roading is putting shared lanes for bikes etc. That is good.

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice No

Q5 Do you have any comments about the changes?

Long Text It's a waste of money. The area is ok as it is. It will do nothing to attract people to the area. Once again council is looking at one small area of Brighton in isolation and don't have an overall plan for the area. The area around the proposed new bridge, Marine Pde and now this all treated in isolation rather than looking at them as one

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text There is already a problem with people screaming through the mall area on bikes and you will just make it worse. Please remove the anti-car/pro cycling zealots from the planning process and do what the community wants instead.

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Cant say i disagree with your upgrades in isolation but come on for years and years it has been known this mall needs to be covered and not a sniff of that in this proposal. There are empty shops and lots and last time i was there a pub closed down even. If you cannot make the mall a proper attraction with decent shops, food options and weather proofing its a waste.

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text
As much as I like the connection concept and the integration of cultural interpretation, I'm really not sure spending millions on new paving cobble is the answer here. NB now has a wonderful pier, library, playground and hot pools, but as soon as you cross the road it is a dead duck. Businesses have been coming and going for years and every time the "mall" section has been revitalised it just hasn't worked. The mall area needs both a real point of difference and protection from the Easterly wind. IMO until you get these two things nailed it will just be the same outcome every time. I'm not sure what that perfect point of difference is, but without it the mall will continue to be an attractive cobbled pathway that is fringed by boarded-up shop fronts. Maybe a "seaside" version of Riverside Market or the Tannery. Maybe ask those few businesses that have managed to survive over the years what they feel will make a real difference. Or maybe look at other similar suburbs around the motu to see how they have created a space that people want to spend time in - Mt Maunganui, Hawkes Bay, North Shore???

And you must acknowledge how much the prevailing Easterly is one of the main causes people don't want to spend time there - nothing in your concept plans addresses this. I'd imagine the mall layout acts as a funnel for the wind, exacerbating the effects.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text
Pedestrians + skateboards + cycles + scooters in a confined space is simply a BAD idea.

Multi Choice No

Q5 Do you have any comments about the changes?

Long Text This is a waste of money. Lipstick on a pig in inadequate, this proposal is minor tweaks to the community areas and the video failed to show any changes to the privately owned areas.

The issue is the privately owned shops and derelict areas, New Brighton (not Brighton) Mall is a hovel and needs to die, so that an investor can move in, bulldoze and rebuild. Pity you failed to use Covid rules to acquire the area when you had the opportunity. Now we are stuck with this cesspit.

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Long overdue. Five decades ago, New Brighton was the place where people travelled across Christchurch to visit, especially on a Saturday morning due to the shopping. It's a venue loaded with potential. Great the City Council is upgrading this area. The people have been through an awful lot post earthquake and need to have more features to enjoy and attract people across the city to spend at restaurants and bars. Long term it would be good to see a massive aquatic centre, (covered in,) which could be used four seasons.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Good idea, however speed barriers may need to be installed as otherwise it will be difficult to monitor speed on scooters, especially if the intention is to attract young families and senior citizens.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text I'd like to see where the palms will be relocated. They are iconic and make Brighton the special place that it is.

What I don't see are plans to deal with the very strong Easterly winds. After 25 years away in Europe I'd forgotten how awfully cold they are.

I'll visit the library soon, but this needs to be a major consideration and I've seen some great design elements that act as well designed, functional barriers that shelter shoppers and those attending community events. I'd say that this is the number one design requirement to prevent failed events and the creation of bad memories by visitors frozen by the harsh Easterlies.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Don't allow cars any further down the pedestrianised area except for services CW vehicles during restricted times or market vendor access before and after market times.

Dogs will sully the beautiful paving work and even when owners scoop up the faeces some is always left behind. It's not a family friendly or hygienic solution, particularly as there's of beach paths that owners take. As a poorer area, I know that many of the dogs here are not always the friendliest as some of the owners have mental health issues which extend to their pets, making (some) a danger. While the majority of dog owners are responsible, we now know that as dogs age they suffer diseases such as dementia and other issues that impact the brain; sometimes resulting in violent attacks on people.

It's not worth the risk.

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Bike racks should be lock docky ones <https://www.lockydock.co.nz/> one of these as apposed to each end of mall with '4' 'normal ones. So much safer and secure for bikes.
Why has it taken so long?
How do u intend to attract and keep business's?

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Don't think allowing and biking & skating is necessarily a good thing. Ideally u want to encourage more pedestrians but if u mix that with the above especially for older people can become a bit hectic. People will still walk their bikes thru and get on them once out of the mall. Which is ok right? It's not a huge mall.

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text There is currently a liquor ban in the area. It is never enforced and this is creating an influx of public drunkenness, vandalism and anti social behaviour. Until this is addressed it will impact the area negatively and visitors will be put off returning. Adding free wifi to the space without addressing the non enforcement of the liquor ban will only worsen the problem.

Q5 Do you have any comments about the changes?

Long Text There are SUBSTANTIALLY more English speaking people in Chch. We do not need more Māori names. Isn't it time to be fair to the English heritage as well? OR in the very least, integrate them ... have both.

Also, the biggest issue is the messy shops. If you somehow encouraged tidy up of the shops that would be far better than putting so much money into the name, paving etc. Until the shop clean up, nobody will go there.

Multi Choice Don't know / not sure

Q5 Do you have any comments about the changes?

Long Text I feel like a lot of money is being put into a band-aid style upgrade. New paving and a few seats aren't going to bring more people into the area — you need something that actually draws them in. Better shopping, a stronger commercial offering, something with real pull.

There are already some great cafés and restaurants, plus a few new builds and developments, but there's nothing that truly brings people to Brighton other than the beach and those existing cafés. If you want this area to thrive, you need to think big or go home.

Anywhere else in the country, beachside property would be booming. I love Waimairi Beach and visit often with my dog, but in the ten years I've been doing that, I can honestly say I've only visited Brighton maybe five times. There's just nothing compelling enough to go for.

If the goal is to go down the "family-friendly" track, then build something families actually want to visit — a movie theatre, a dining complex, something like a smaller-scale Riverside Market. Create a destination, not just a prettier version of what's already there.

Brighton has so much potential. It just needs a reason for people to choose it.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text I feel like changing the pedestrian area to a multi-zone is just putting back some of what was already there. I'd really encourage you to research what other countries are doing — look at successful shared zones and truly pedestrian-only precincts.

Unless the infrastructure is considered first and properly future-proofed, this feels like change for the sake of change. You can't tweak one feature and expect it to have a meaningful impact. If the goal is real improvement, the planning needs to be bigger, smarter, and more forward-thinking.

The reason Brighton was a booming area well before my time was because it had something that actually drew the crowds — weekend trading, at a time when that wasn't common. There was a real point of difference, a reason for people to travel there.

So the question now is: what is drawing the crowd today? What's the unique pull that makes Brighton a destination again? Without something compelling, the upgrades won't be enough to bring people back in meaningful numbers — whether the goal is to attract families or to create stronger commercial appeal.

Multi Choice No

Q5 Do you have any comments about the changes?

Long Text This is super disappointing, absolutely no vision here. Paving looks to be the biggest change wow. I'm unimpressed.

This very much lacks creativity enthusiasm, as it could be made into a major draw card for tourism uplift and to uplift the community and the surrounding business in the area.

Except it looks like we're just creating a patch up job to an already established mall, where it needs some real development to become real major draw card not just for local community but international tourism to become a beautiful hub. The community should not expect that we keep accepting this low-key upgrades that really doesn't change the dynamics of the area what so ever.

The palms , we need to lose two of them , no you don't design it so they can be kept.

You write more needs a larger vision not just a small token effort of change of paving. The change of name does not seem appropriate for the more for the people that live in the area. This is cultural washing and it shouldn't be accepted.

could be turned into a tourist hub with connecting transport from the city reconnecting the heritage of the air with a tram from the city to the pier would be a significant change and increased tourism upgrading the area significantly. The mole itself needs to be extended from the current design all the way back leaving the Palms and place redesigning the buildings along the mall to be taller to capture the the views along the beach along our Alps and on the Port Hills incorporating cafe, high market shopping .We need to capture the essence of the area. It's disappointing with the vision of this current plan as we have the opportunity to create something truly beautiful something that generations can generally appreciate.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text I would consider that this is development is far too small and scale and needs to be re-thought to be bigger to reconnect the pools and surrounding buildings with a new redevelopment new Brighton Mall. I've also noted in the tick boxes do you agree with the name change was not in the Survey.

Long Text Most people are sick to death of the Maorification of NZ. Every single one of them is mostly British or European. This is all one big scam where anyone who criticises Maorification is singled out, labeled as racist/ far right and ruined in the woke msm machine of wimp pussies. Where and when are you woke, limp wristed Marxists going to call out, John Tamahere, for his multi hundred million dollar corruption? Yes.. never, because you're gutless cowards whom only attack easy targets. Fuck off the lot of you.
Lee Williams
He who lost everything for telling the truth of the Maori con against us all.

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text

Considering the short length of the mall, bikes could be wheeled and skateboards carried to their destination in the mall. If just using it as a thoroughfare, they could always go around it. After using lots of shared footpaths, there is nothing relaxing about having bikes and skateboards wizzing around, especially if there are no markings for guidance to keep them separate.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Good to see some upgrades. But it all seems like it's just a cosmetic uplift on the terrible mall. It's a shame there isn't a big plan to redevelop and bring in some businesses or new ideas to make people want to go there at the same time!

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text I have just moved from New Brighton having lived Eastside for 15 years so frequented the mall when Farmers etc were still in the mall. I like all these aesthetic changes but the unsightly buildings (SaveMart) need to go and a variety of higher quality businesses need to move into the mall. Not everyone is interested in markets, eating and drinking.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text While this is lovely, it's all concrete and not natural. To truly make a captivating space, it needs to include more nature - grass and water would be ideal.

If people want concrete and urban, they'll go to the CBD. Make New Brighton something special and welcoming, not another concrete jungle.

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text

I would also support preventing car traffic (except buses which are operated by trained people) from access New Brighton Mall Beresford and Hawke street. It's already very pedestrianised and would make a good place even BETTER!

<https://maps.app.goo.gl/BFvKGRmSRzrKbQu27>

Cars that want to access the car park can go around New Brighton, not through.

Also could you look at removing car travel through this section of the mall as well? Currently it's nice that cars have to go slow through this area, but they don't really serve much of a purpose being able to drive here, there are barely any car parks along here and it's prime land that is right in front of shops. It would be better if this was better utilised (I realise this is outside the project scope so would be for a different future project ☐☐)

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text

Have a fenced lane for them. You could make it quite attractive, like a little obstacle course(very minimal), but a few humps and a tunnel. for example, to slow them down. Keeps the "hoons" under control and pedestrians safe. There's no question you'll get the hoons roaring through. One visit and that will be it for people who come for an outing. You want consumers going through there, not commuters on wheels. Who's going to police them, and what powers will they have to stop them? Please, no PC rules. Strict guidelines with severe consequences if broken. NO scooters.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Unfortunately these improvements do not address the structural issues of NB's economy and geography . But they will at least be a huge improvement on what is there now the sharply dereliction of New Brighton of the post-quake years is a proven failure. The new community led initiatives are fantastic and will hopefully lead to a change in focus for the town. These safe infrastructure works will I hope support the community

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Cars should also be banned on Marine Parade (or at least slowed down to a 10kph zone) between Hawk st and Hereford street. Without this the beach and the mall will always be treated as two independent, non-connected spaces

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text I appreciate what the Council is trying to do, but I think the paving is a bit over the top. Something more plain would still work.
It would be better to spend money making the building owners to smarten up their buildings, and encouraging better retailers to move into New Brighton.
The lighting, security cameras and seating are good ideas.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Anything that encourages people to move into New Brighton from Marine Parade is good.
There would need to be lanes for skateboards and cycles, separate from pedestrians.

Long Text

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text If you change this to a shared zone, you will have bikes, dogs, skateboards etc which will make it a danger zone for those of us who wish to stroll down this area. Bikes can use the roads and skateboards are just dangerous to those around them, no matter how you make the rules this should not be a shared space.

Long Text I like the addition of the security cameras and the new rubbish bins!

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Honestly I think shared zones are bad for pedestrians. I don't want to have to worry about people on bikes and skateboards going faster than walkers. I think it should stay walking only. Other shared paths etc are no good there needs to be separation when there is that type of difference in speed. You have to think of the oldies, I am a young guy and been hit by a biker on a shared path and it hurt bad, it could have been far worse though

Q10 Name of organisation/business

Short Text

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Bins have to be emptied regularly during day minimum four times to avoid overflow of rubbish into the mal area. The mall has to be reconnected to the beach. Traffic can be diverted from Beresford street though the new road on Oran ave to Hake street. This would increase safety for pedestrians using the playground/ beach/hot pools and the marine parade entrance to the working men's club.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text The spaces are too narrow . With extra seating alongside the new gathering space, introducing bikes and cyclists creates a high probability of a pedestrian/ bike/ skateboard collision. With dogs , there needs to be an increase in regular animal control patrols. The pier and the beach should be included in this.

Long Text I think the suggestion that the Mall should be a shared pathway is not well founded. You say the whole concept is to provide a "SAFE" area for pedestrians but allowing skate boards and motorized bikes & skate boards is very worrying for pedestrians who would be constantly worrying that they will be knocked over by such traffic to the point that they will consciously move aside to allow this other means of transport to pass.
I have personally been in the city center walking with a friend when two electric scooters came towards us, wobbling as they do and we moved off the foot path so they could continue their progress. There was no suggestion that they would move for us. I have also ridden my electric bike slowly along a suburban sealed foot path while walking my dog, and seen other pedestrians move onto the grass berm confused about whether i would move out of their way, which i always do. On occasions I stop my progress moving onto the grass berm so they can walk passed without issue.

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Looks excellent & will be a tremendous improvement for the Mall.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text In theory I like the idea of a shared zone, but the reality is that some people on bikes & scooters don't abide by the slow speeds requested. Hopefully it will work well, but there are people of all sorts of abilities that come to the mall, especially on Market day & it can get quite crowded. I'm not sure how the shared zone will work for people who have any sort of disability.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text I do not agree in accepting the gifted name Te Ara Kuaka Brighton Mall particularly as you are putting that first. Just leave the name that it has always been, no need to change it - by changing it you are not making it more welcoming. I gift you the original name New Brighton Mall.
I feel you are not listening to ratepayers - we just want money spent on improvements to make it a safe place people want to come and live and work.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Do not need the extra cost of etching cultural patterns and a name into any areas - just need a nice pattern.

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Name should remain New Brighton Mall our ancestors gifted this name many years ago & my family has lived in New Brighton for many years. There is no need to change the name it was never the pathway of the Godwit, their pathway is down the estuary & has been so before Māori came to NZ from Polynesia - translation Te Ara Kuaka meaning the pathway of the godwit. So New Brighton doesn't need a made up name. We don't need money spent on changing names - money is better spent on improving safety on the area for all the community that lives there.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text
There is no need to change the name: Te Ara Kuaka meaning the pathway of the Godwit was never the pathway of the Godwit, their pathway is down the estuary at South New Brighton & has been so before Māori came to NZ from Polynesia. So New Brighton Mall doesn't need a made up name.
Not needed on signage or included in a cultural design in the central gathering area. Only simple paving design no weaved patterns with symbolisms or names.
Want a safe tidy area for the community and visitors - don't go overboard, every saving helps keep rates lower.

Long Text
Extend the 10km/hr zone to include Marine Parade between Beresford Street and Hawke Street.
Add a speed hump on Marine Parade to slow traffic turning from Marine Parade onto Hawke St. (Possibly the same is required on the Marine Parade/Beresford St corner.

Extending the scope a bit, at the end of the pier enforce the no fishing zone and create an instant \$150 fine for those transgressing.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text
Don't allow scooters in the mall. Have a big instant fine.

Q5 Do you have any comments about the changes?

Long Text
i am highly doubtful that any of the changes proposed will revitalise N.B. Half the businesses are dead, with more to go we'd guess, and so with empty space galore. Our 25 years in Chch have shown us that N.B. needs a great deal of something more than the enhancements you propose to reverse its downward spiral. i would propose enticing something like a dressmart to make N.B. a shopping destination, a discount outlet shopping mall. another grocery store -- why not invite Aldi? the library is outstanding, the pools fine for locals, but not a significant draw for people from a-far. and nothing will change that it is an inconvenient bus destination, but perhaps more N.B. dedicated busses utilising a more direct route from the bus exchange would help -- half hourly mini busses, for example. in the end, i don't think that tarting up the mall will do anything to reinvigorate the place. it will make N.B. more pleasant for locals, but it won't draw crowds. only new businesses will make it sexy enough to bring in the punters.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text The design needs more public rubbish bins. The current rubbish bins are always overflowing on market Saturdays and I can only see this getting worse during any public events.

The name of the suburb is New Brighton not Brighton and all documentation and naming i.e. where you have the Maori name and English set into the new paving should reflect this.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text I'm unhappy that the improvements are only going as far as Oram Ave. The mall goes to Shaw Ave. Also I think the timing may be out, as very soon the developers will be doing work on their properties. This will surely mean that the new mall improvements will be impacted. (Hopefully they are starting SOON!

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text It's unsettling for pedestrians to have bikes/scooters/skateboards racing past them. Especially for elderly and those with young children/pets. No one monitors the speed of bikes/scooters and they frequently exceed limits set in shared zones. The area is a lot more relaxing without people having to dodge bikes.

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text Seating under the palms will need very regular cleaning due to birds nesting above. I would also welcome to have two seats close to each other so people can connect easier .
The name New Brighton Mall should also feature in the paving alongside the given name.
Creating a central gathering place diverts the possibility for the space to move with the visitors at the time. Without "guidance" people will gather in the space which is best suited to their activity or mood, thus becoming more of a "where I feel good" space than a "dictated" space.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text It is a beautiful space for kids to run ahead without the parents needing to stress about safety. Keep it vehicle free!!
The distances are very short, most people can easily walk from car parking to the mall. Some disabled parking spots should be allocated (and CHECKED!!!!) for those who struggle.

Q5 Do you have any comments about the changes?

Long Text Kia ora koutou,

Thank you for the opportunity to provide feedback.

Te Ara Kuaka

As a New Brighton resident I wish to thank those involved in gifting the name Te Ara Kuaka. E mihi ana ki kā tēnei rohe.

I'm thrilled that this name will be included on signage in the area.

Please could any other signage also be bilingual?

Paving pattern

The paving pattern looks wonderful. Please ensure that this is sustainable if future underground work will disrupt the pattern. (I mean sustainable in terms of climate change effects and flood plain). It would be great to understand how you have designed new drainage to be suit the environment and ground conditions.

Gathering area.

The principle of the central gathering area sounds good, however, I do question the location. Can you develop a visual of what this would look like when there's a new development on the current Village Green site? Is the chosen location influenced by the new developments? Obviously it sits right between the two of them. It seems to me that it would make more sense for the gathering area to be at the end of the current project area/ at the curve of the slow road, adjacent to Ocean Alley, and where the market currently has a gathering area with performers and activities.

I'm dismayed that the project area neglects the continuation of Brighton Mall towards Beresford street with the awful old fish skeleton play area. That eyesore will surely detract from proposed project. Will that area be upgraded by the developers or at any time in future?

I hope the consultation around this design included discussion with the New Brighton Project who have been almost solely responsible for bringing the majority of people to the mall area over the last decade. The seaside market is a neighbourhood treasure. The current project illustration shows the odd gazebo randomly placed along Te Ara Kuaka like an afterthought designed by someone with no understanding of the market. It looks nothing like the thriving and well loved seaside market that is adored by locals. I realise the market is only on Saturdays but the gazebos in the illustration confuse this.

Seating under palm trees.

Safety risk.

I'm strongly opposed to seating under the palm trees as would be any local who has witnessed the huge palm tree leaves dropping without warning. The trees are lovely, and part of our community. However, unless the council can commit to carefully maintaining the trees, in perpetuity, the plan to install seating under them creates a significant safety risk. What happens the next time the council is short of money to maintain the trees or even following the ever more regular storms? If there is seating under these trees people will assume it is safe. Aesthetically the seating design looks lovely but this is a terrible plan. Locals know not to sit under these trees! Couldn't we have more of the surfboard themed seats to match those on the footpath in the slow road area? It sorting that at least acknowledges and complements the seaside theme.

Above ground infrastructure.

In regard to streetlights, feature lighting of the palm trees and central gathering area, free public Wi-Fi and security cameras these are great ideas, and would benefit from additional consideration and water related additions, thank you.

Please could the lighting be designed in a way that is mindful of the natural beauty of the area including the views of the incredible summer sunsets we often get, views of the night sky and consideration of possible future residents There needs to be a very fine balance in lighting design. Ideally this area should be conducive to apartment living above the mall and the slow road. That's what is required to actually bring life into the area. If the lighting is garish this would be off putting to developers and future residents.

I realise this may add significant cost but is it possible please to have multi function water taps available for drinking (humans and animals), community projects etc? For example the wonderful garden plantings installed and maintained by different groups of volunteers over many years. We have never been able to water these easily. If all of the infrastructure is being redone please let's do this in a future focused way that recognises the deeply engaged local community who may need access to water in future. It would be truly wonderful if you could take a drink, or fill a water bottle (especially filtered water although I guess this is a lot to ask), and get water for your four legged friend while you're out and about.

Ngā mihi nui for the huge amount of work undertaken by staff, elected representatives, business and property owners and community members over the last decade and a half plus! It's wonderful to see a planned upgrade of this area happening.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Yes this will be wonderful. It's so important that New Brighton is safe, attractive, and welcoming for groups who will use the City to Sea Pathway and locals and other visitors.

Skate boards certainly feature in likely transport options for locals and perhaps for visitors.

There will of course be increasingly frequent use of scooters, and e-scooters which you don't seem to have mentioned.

Careful thought needs to be applied to how scooters and e-scooters and e-bikes can be included for use in this zone. Families are already cycling, and scooting, on the existing sections of the pathway. So many families already use noon powered scooters. I also know families who have purchased e-scooters for rangatahi to use.

Please can the signage be carefully designed to indicate clearly that vehicle speed limits include e-scooters and e-bikes?

Hopefully the city to Sea pathway will attract visitors from all over the world to follow in the footsteps of Dave Grohl and cycle to Brighton! So we'll need international best practice in signage including use of pictograms to convey expectations clearly to all ages and all languages.

This redevelopment provides a wonderful opportunity for consultation between council, business and landowners and the companies who provide hire scooters and bikes. It would be truly genius if you take this opportunity to consider where the bike/scooter companies might locate their bikes and scooters. Please don't leave this to be an afterthought resulting in piles of scooters left on top of feature paving design, or in the way of businesses and pedestrians.

It's a given that these shared use vehicles will become more and more relevant. Please let's future focus this in the current development planning!

Lastly, please ensure that any signage clearly indicates the availability of public toilets and the significant distance to those which makes accessibility challenging for many.

Considering those traveling to Brighton along the City to Sea pathway, Is there any chance of an upgrade to the abysmal Shaw Ave public toilets? It is humiliating to imagine users of the City to Sea path arriving in our wonderful suburb and being subjected to those as the first available facilities they come across.

Again, thank you!

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Can we please please have some locky docks for secure parking of bikes, near the library and hot pools, in the mall by Surfside Mall/Carnaby Lane and in the mall ShoreLine Fitness? If we are looking to encourage people to enjoy the pools, library and shops, go to the gym and spend time in cafes our cyclists (of which there are many) need to know their bikes are not going to get stolen.

Can we please also consider upgrading public toilets? The ones by the Pharmacy in Shaw Ave are disgusting and not a great place to let young children or women alone use.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text It all sounds fabulous and I hope these improvements will be made in a timely fashion, so that we residents are not waiting for ever with constant road works and noise from heavy machinery. Permitting bikes and skateboards in the area would be a mistake as the riders will not follow the rules. They are there now anyway, sometimes in quite large numbers, doing exactly as they please wherever they feel like going. And who is going to police this? Are we going to finally have a decent regular police presence in New Brighton? How about Community Constables?

Q1 Do you support the new paving along the mall?

Multi Choice Yes

Q2 Do you support the creation of a central gathering area?

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text It would be cool to see a replica or something similar of the old new Brighton mall pillar sign

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text

Q10 Name of organisation/business

Q1 Do you support the new paving along the mall?

Multi Choice Yes

Q2 Do you support the creation of a central gathering area?

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Definitely not electric scooters. I love them personally but in this contained area it would not be conducive for safety around a variety of age groups. Bikes and skate boards are at safer speeds. Electric scooters take off very quickly and trickier to control.

Long Text

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Only if there is a clearly designated bike lane separating from pedestrians. One would expect - and hope- there is a significant increase in biking visitors once the bike pathway is completed.

Q10 Name of organisation/business

Short Text

Q11 Your role

Short Text

Q12 Full name

Short Text Carmel McKay

Q1 Do you support the new paving along the mall?

Multi Choice No

Q2 Do you support the creation of a central gathering area?

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text New pavements & lights won't attract people to spend time in New Brighton if they aren't already. Things like transport connections, employment opportunities, and retail are needed.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text People need to be able to see the mall from their cars. Lack of car parking & public transport options nearby mean the mall will feel more isolated, not less.

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text There appears to be a lack of playfulness in the design. Some of my earliest memories are of the tipping bucket waterfall in Cuba Mall as a kid - so my question is, what makes this design memorable for children? It is very stark in that sense - would love to see a wet play area, jet jumping water, or something similar to encourage it as a place for families and to treat it as more than just a destination for shops.

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Please don't use the same paving, planting and seating as has been installed in the city centre. Every city/town centre looks the same now that Boffa Miskell designs have been implemented everywhere - Auckland, Tauranga, Taupo, Queenstown, Wellington, Chch. Each city should be unique. Some seating under a timber structure would also be lovely.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text It is a great idea.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text The renderings don't look like anything will be eye-popping or giving a 'wow' factor that draws people there and makes them make intentional trips to New Brighton for this. I hope to see more unique architecture, structures, lighting, activities, and shops that make it all feel modern, fun, and safe! It would be good to look at other famous beach and pier areas around the world to see what draws people there.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text It's all good things changing the facade and pathways of the mall however no one will come unless the buildings themselves change. They are very dated and worn down, nevertheless, filled with second hand clothing etc. People will come if there are something of value to entice them like new restaurants and cafes, galleries that promote new Brighton artwork, surfers inspired shops etc. If only the pathways and seats change and the same second hand furniture and clothing stores remain nothing will change except the money rate payers have to pay for the new pavement etc. if you want change you need to find the right markets to get people to come.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice No

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text People already bike and skateboard down here on a daily basis. This will be a waste of money to change the wording on paperwork.

Multi Choice No

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice No

Q5 Do you have any comments about the changes?

Long Text It would be great if you could consider the dark sky concept in regard to the lighting. Low downward direction lighting instead of making the area look like an airport landing strip. Any removal of the existing palm trees without thought to relocation within the mall is simply shortsighted. Regeneration will only come when shops and businesses come back to the area, along with events and activities that will attract visitors.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text It maybe a wait and see process regarding the shared zoning of the mall. But just driving down the mall is not enough. Thought has to be given to parking issues in and around the mall and shopping areas.

Multi Choice Somewhat

Q5 Do you have any comments about the changes?

Long Text
It is New Brighton!
It does NOT need another name!
All the shitty old buildings is New Brightons problem!
They are not welcoming at all.
Yeah, the paving, lights etc will be nice. But there are more important things to be spending money on.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text Has council consider putting a roof like structure so the Brighton mall could be like a semi-outdoor space, and it could shelter the rain during wet season, and the mall remain lively. An idea from Japanese "shou ten gai" (shopping street)

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Don't know / not sure

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Judging by the image, the space doesn't seem sufficient for bikes and skateboards to travel through. If the Brighton mall gets busy, bike and skateboard traveling through would be potentially hazardous. I personally support if bikers get off push the bike and skateboarder carry skateboards through the mall.

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text The issues with New Brighton Mall are far more fundamental than surface upgrades will address. The sheer area of land dedicated to commercial use is far too big for the number of people it now services, which means empty shops and vacant land. To make the mall area appealing, the land outside of the first block should be re-zoned to "mixed use." This would cost virtually nothing and allow the area to change over time, with small scale apartments replacing derelict shops. This has been a strategy used a lot in areas showing similar decline overseas and has been successful. There may be a shop at ground level, but above could be residential space. There maybe some successful areas, like Carnaby Lane that remain. Increasing residential areas close to the commercial area, in turn, would bring much needed business to the shops that do remain and would also make the area safer by having more people around.

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Multi Choice Yes

Q3 Do you support the new seating around the existing palms?

Multi Choice Yes

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text
The paving is a nice idea but it's a lot of different colours that don't really go together and somehow make it look really bland.
There's also not many plants for a "village green."
Honour the beachside theme and put some verandahs along the shop fronts so people can walk in the shade, and have plant baskets hanging from with pretty flowers.
And some nice planter boxes along the walkway to add some greenery to the village green. Plants like Arthropodium cirratum, Hebe Red Edge, Pachystegia Rufa, Aceana Purpurea and Libertia Ixioides. These plants add a lovely variety of colour without needing a lot of maintenance.
Southern Woods Nursery in Templeton can supply all of these plants.

Q3 Do you support the new seating around the existing palms?

Multi Choice Don't know / not sure

Q4 Do you support the new streetlights, feature lights and other enhancements?

Multi Choice Yes

Q5 Do you have any comments about the changes?

Long Text The overall plan looks great. The palm trees are full of nesting birds and having seats under them with droppings and baby birds raining down is not the brightest idea. Placement shown of the bike racks has them in the middle of the Saturday markets proposed food court. Placing them in ocean alley or by the fish skeleton would make more sense

Q6 Do you support changing Brighton Mall from a pedestrian mall to a shared zone?

Multi Choice Yes

Q7 Do you have any comments about changing Brighton Mall from a pedestrian mall to a shared zone?

Long Text Cyclists and skateboarders use the mall now so the change makes sense. Will the bollrds at the western end be changed to droppable ones? This would allow delivery vehicle to enter from the west and exit on Marine Parade without the need for turning in the mall.
