I love it, I walk this park everyday and I would love to see it restored and looked after more, at the moment the poor Woolston park is looking a little sad, over grown paths and just sad looking trees, hopefully it will
Combat the convolvulus as well! I love seeing Woolston park get some care.

Trees bring birds , the problem in woolston is the amount of roaming cats, it would be better to pass some by laws to make cat owners more responsible , and limit cats roaming , before planting native trees and attracting beautiful native birds,
The roaming cats in this neighbourhood are a definite nuisance to wild life,
If we are going to plant trees , they should definitely be native, as to attract more native birds and reduce the habitat for introduced species, but as previously first council needs to get roaming cats under control,
Cats should not have the right to roam in Christchurch, they cause far too much damage to wild life
