What do you think of the plan?

What do you think is missing?

I think the plan is awesome and the fitness stations are cool and it will be cool watching trees grow every time I go to the park. I also like the amount of space you left for the field cause its still very spacious.

What do you think is missing?

I think you should make more benches so every time people have sport games there more parents can sit down and watch their kids play. I also think you should add more flowers and stuff to make the garden prettier. That's it.

I like your idea, but there is something you could add. You could add: a punching bag • a spot with soft material on the ground for push ups • ~~the~~ cherry blossom tree • Kōwhai tree.
